Thread: [\[FREE\]\[MONEY MAKING METHOD\]\\$15-\\$100 PER DAY\[METHOD IN THREAD\]](#)

OFWGKTADGAF - January 2, 2014, 6:46 pm

Introduction:

This excellent guide will enable you to earn from \$0.6 to over \$20+ Each Day (You have to follow the guide properly to enable you to earn higher). This PTC website is very safe and has been around since 2008. The more you click the more you earn!

Things you will need:

- A paypal account
- A little patience for the beginning
- Time (Approx 20 Minutes Everyday)
- link to register: [/19xtHkc](#)<http://bit.ly> [\[WARNING: potentially infected\]/19xtHkc](#) (this is my referral link use this and your not only helping me but yourself too)
- non-referral link: [probux.com](#)

Step 1: Choose a time of a day that you can click your 20+ ads daily (important!)

Step 2: Select a time each day that you hit all your ads. Try to click every day at the same time if possible. You MUST click all ads Orange (4+) to be credited for the clicks of your referrals. If you miss a day you do not earn the clicks made by your referrals.

Step 3: Once you reach the 2\$ in the main balance, transfer the money to the RENTAL BALANCE. (NOTE: Do not make the mistake of renting referrals when you just have \$0.60 as most people do. Yes, you can rent 3 referrals but you will not have the money to maintain them after they expire, so wait until you have \$2.00). It may take some time to make 2\$ on your own, but it will be enough to keep your new referrals and recycle the inactive.

Step 4: So you have 2\$ in your rental balance, rent 3 referrals. At this point, turn on Autopay (you can find this option at the top of the page, at your referrals). You get basically a penny less each referral, but they will be your referrals for as long as they remain active.

Step 5: Continue to rent 3 referrals each time you get \$2.00 in your account. As you earn more money, you can rent at higher prices.

Step 6: Once your account reaches \$100, use the \$80 to upgrade your account to Golden. The referrals will immediately start to earn 1 cent per click instead of normal ½ cent as a standard member. You will now see your earnings start doubling!

Step 7: Start renting your referrals again while ensuring you have enough money to renew and recycle existing referrals. Once you reach 1200 referrals, stop renting and focus on maintaining and building your balance.

Step 8: Once you have enough money, upgrade to Ultimate. The upgrade fee is expensive but has impressive benefits. The best feature is the 7-day auto recycling. If any referral is inactive for 7 days in a row, the system will automatically recycle with an active referral. Once you upgrade to Ultimate, I would recommend stopping the manual recycling all together. In addition your personal clicks now will be worth two cents, there will be guaranteed at

least 15 ads daily to click, also you have 30 days "holiday" where you get money from your referrals, even if you do not click advertisements for those days and many other benefits.

Step 9: Once you join Ultimate, keep renting referrals until you reach over 2000 (but 4199 referrals is best). At the point of 4199 stop renting, turn off the autopay and start to renew your referrals for 90, 150 or 240 days at a time. The more time passes, the greater discount for renewal. Again, think long term. Renewing for 240 days at a time will cost you more up front, but a discount for 30\$ compared with 15\$ discount for autopay, your profits will be much larger in period 240 days. You can actually make up to 100\$/day in about a year if you keep being active (1YR).

Conclusion: I know this method might take a little while but at least you will start seeing money building up unlike those fake lies about making \$100 every day instantly and this is a completely white hat method. Also any and all vouches are appreciated thank you. Any questions you have pm me.

Good luck with your earnings ?
