VOUCHES

Spoiler ([Click to View](#)) (Jan 3, 2014 05:28 AM)Kipcorn Wrote: [\[CITE\]](#) I am in no way affiliated with Hack Em, this is not an official review.

Quality: 7/10

There are in total 6 methods in this eBook which may seem very promising. However, 5 of those methods are publicly known. 2 include eWhoring and 2 include eBay methods. There are in total 4 pages, meaning that every method is not explained in big detail but he gives you more than enough information on each one. I should give this a 5 probably but there is one method that can really give you money if you do it well. You can also use another method which isn't known by a lot of people, but is publicly known.

Ease of use: 6/10

Some require hard work and will probably not work but some methods definitely have potential to earn money.

Grammar: Average/Good

As I am not a professional English teacher I can not say this for sure, but I could see little grammatical and punctuation errors.

Layout: 7/10

It is a very simplistic PDF file but I really like the fact that there are headings and links in the eBook, which you don't come across often. It is easy to distinguish the different methods. However, there are no pictures.

Overall: 6.8/10

I would recommend buying the Platinum version as the author promised me that he would add 3 additional methods within a short period of time, also just to be safe in case you don't earn any money.

Please do note: The methods in the eBook are mostly black- or grey-hat. However, there are some white-hat methods.

With that said, GLWS!

There is an impressive amount of information in this e-Book, explains in-depth each steps.

http://img825.imageshack.us/img825/4774/50e1b4f4.png

The implementation of this method is almost easy and the author provide every single step which you need to complete the setup.

http://img155.imageshack.us/img155/7835/aea97688.png

The layout of this e-Book was good. The background was white, black fonts with 4 pages. The author also highlighted necessary text which was good.

http://img534.imageshack.us/img534/5183/5fe7ea0d.png

The grammar was decent and I didn't encounter any spelling mistakes or grammatical errors.

This method is not so original enough because I have seen such method before. There are five different methods includes BH. I have seen 2 methods before but other 3, I haven't seen before. I will recommend to purchase and start earning today with this method. GLWS ?
