unfair thats like saying you want different losers

the point of a tournament is to lose and get better or win and try to see if you can win again, not his fault if players don't want to put in the effort to get better just my 2

It's inxy's tournament. Inxy can run it however way he wants. If he wanted the best player to win, he wouldn't be making this an HF-active member-only tournament.

With that said, if somebody clips me, much respect.

The reason I replied to that guy's post was because I disagree that I got destroyed. It's not as if I were challenging Snip3down and got sniped, I wasn't looking anywhere near him. He wasn't under any pressure aside from the fact he was on a multi-kill (which is a form of pressure in itself) and he simply sniped me while I was attempting to kill his teammate.

As I said before though, it was a really great clip.

You will know when the tournament starts and you will have a PM each morning telling you who your opponent is. You must play him by 10PM PCT or you lose unless your opponent is the one who doesn't show up, then you will probably win.

I only judge them when it's really obvious host. Like he eats 8 million shots and gets a ridiculous out-BR or something.

Even on host, being able to hit a lot of the clutch shots and multikills that I've seen is still pretty impressive. Host can't be contributed to everything, definite skill is involved either way.

This should help,
make sure you abide by them in your posts.

Quote:Posting Etiquette of Hack Forums

1. Post in the correct category. Read the forum descriptions if you are confused.
2. Use good grammar. Basically start sentences with a capital and end it with punctuation.
3. Don't double post. That's when you post one after another instead of editing your existing first

post.

4. Don't cross post. That's when you repeat a post in multiple threads or categories.

5. Create relevant subjects for threads. Shit like "OMG" for a subject is immature and asinine.

6. When posting content from another site, credit the site; use quotes and link to original content (unless it is a competing forum, in which case you shouldn't be posting the content).

7. No "Post Here and PM me" threads will be allowed. This includes "Post Here and I'll PM You" or any "Post to PM" threads.

8. Be kind to others. How hard is it not to be an asshole?

9. Act like you're older than 16 even if you aren't.

15-8 first game of the day.

All I did was take your face.

I was waiting for your stupid comment.

Like I tell everyone, your skill is barely above the rest. You are only good at getting 5-6 spawn kills in a row.

This mornings game only proved my point.

Don't use that excuse. Everyone here knows I play Dead Island more than anything else. Nice try though.

I had literally just woken up and it was 15-8 while you were trying to spawn kill me.

Stop being so delusional.

I don't hate on McCaskey at all. I don't hate on anyone usually. Trolling is a different story. If I hated McCaskey I wouldn't have put him in my halo lounge...No one here is mad. You are entitled to your opinion just as much as I am to mine. I dislike you for other reasons...

I love how everyone decides to make an assumption without knowing anything.

The first game we played on his host and it was within a minute when I stopped playing by just crouching and waiting for him to quit the game but all he did was kill me making it 5-0 when I quit. The reason for this is because there was a host change making there two snipers and two camos on the map to start with which shouldn't happen.

Secound game I hosted and I won with no connections errors 12-11.

Third game we switched to his host and we're playing until it started lagging and he ended up quitting out. 6-6

I have footage for all three games that would support everything said.

I put Tommy & Phury in the same section of the bracket so it would be impossible for 2 people who don't care about HF to be against each other in the final match.

Host is always your excuse. I don't know how long you've been playing, but it's sad that you still don't know how to tell if it's your host. I saved that game against you where you said it was my horrible host, yet it was yours. Also, don't forget the other 5 games we played until you ended the game and left cuz you couldn't beat me.

I know this is a big request, especially since you won't be at home inxy, but is there any way we could move the finals to Friday? I have my senior biology oral exam on Thursday, which I need to pass to graduate. I would love to stream the finals and I think we could get a lot more viewers if it is on a Friday afternoon/night. You could receive both of our paypal emails beforehand so you can just send it to the winner. Last time I was in the finals with Jumprs, I was able to pull 200+ viewers, which was awesome.

Surely there is some way we can figure something out. If Guntype and I both agree to do it on Friday, would that be fine? It seems like others played their matches on a separate day. I think it would be more entertaining for potential viewers and competitors if we both were in the correct mindset for the game, and not rushed.

I have to agree with Rofl Gun.

Rofl Gun has tried tremendously to balance both the tournament and his school work.

I would know.... how serious he is about school work... He would rage at me when I would talk in party chat when he was studying... ANYWAYS.

We all know I am a twitch nerd. I can promise you, you will pull a shit ton more viewers on the weekend rather than during the week.

I mean, seeing the final tournament match as well as all the kids on twitch, might even drive more people to become active in our section.

Like you said Inxy, it is ultimately up to you but it would be amazing to see the final match up against Rofl and Guntype on live stream.

I have said my two cents, and good luck to Guntype... YOU WILL NEED IT.

Surely Rofl can take a quick 30 minute break to do a 1v1. I pull high grades in school too and I'm not a machine, studying for more than a few hours requires some kind of break to take your mind off of things. If inxy isn't going to postpone it, just play it.

Chances are it will be a best 2 out of 3. (~12 minute long matches = 36 minutes).

If I just hop online after not playing for five days, obviously I'm going to get raped by someone who has the time to play every day (not saying Guntype plays 10 hours a day, but even playing 1-2 hours a day is more than enough to be warmed up).

I'm not even saying I will beat him, but I think the matches will be a lot closer if this were to be moved to Friday, where I could warm up some in the morning/afternoon and then play the match in the late afternoon/night.

Guntype is a phenomenal player that has made it to the finals solely based on his skill. To play his final match against someone who hasn't had a decent amount of time to play in over a week would be unjust.

I understand inxy wants to get this over with by the 26th because he is leaving for a bit, but I'm sure there is some way to work something out. Random idea, give either one of us the money on the 26th to then keep or give away depending on whether we win/lose the match we play on the 28th.

Another disappointment is that I won't be able to advertise or perhaps even stream the game if it's on the 26th. This would leave the HF community and Halo community in general unable to witness the finals -- perhaps losing potential future HF members.

my two cents.
