Thanks! method worked like a charm!

xviiziionz - August 5, 2014, 3:14 pm

The first method makes the email, but the confirmation email doesn't show up when verifying a DreamSpark account.

The second method makes the email, I get the confirmation email when verifying DreamSpark, but when I click the link it sends me to finish verification, it asks for a 25 digit key like this >>>>

Ya it works. I found your issue. After using my legit college email and that 2nd method one, it's because the link isn't showing properly in that email.

Just piece together right. Example on how it should look,
