What category is the method based on ? Just a general category will do, like autoclicking ads, surveys, tweets,cpa, ewhoring,adsense etc etc (example)

Also, is payouts only via paypal ? Instantly or net-30 days ? I wont ask who payment provider is thats why instead asking about the payment terms

Any pre-requirements for using the method and any country restrictions ?

Here are a few questions I asked other ebook method sellers:

I have a facebook community of 30k users, a asian community site with active users and a friend with world's 2nd top ranked game release site with 200k UV a day

Do you think I can use any of these resources with your method to get the earnings atleast \$100 a day ?

Does this method relate to reselling something or services ? Like people do on WSO or writing ebooks etc ?

Just to get a clear idea if its related to services or marketting (like cpc/cpl/gpt/signups) etc.

There's no reselling/dropshipping or writing articles/eBooks involved.

However, if you purchase the "Gold" package i have some bonus eBooks that you could definitely use for your websites and Facebook page.

Now I'm really getting curious. Few questions:

- 1). Does this involve "other people" in any way? Like do "other people" click on your link or pay you for whatever

- 2). How much is this method been used and how old is it approx.
3). Can you give me of an exact amount of time you will need AT MAX.
Like me as a first timer it would take 2hours at max, or whatever?

Thanks for your response. Also i'm interested in HOW you secure your eBooks to not get leaked (if you want to share these)

interesting offer...have few questions mate..

Can you just give brief information on what this is about? no need to give more details just brief like, facebook/youtube/craigslist etc..just please name the main traffic source for this method.

Do we need any website setup to make this work?

Is this anything to do with incentive?

As i can see in the video we deal with CPA networks. So is this method acceptable to networks or we need to do anything to make it look like whitehat?

Thanks,

Very interested in buying this ebook, but i am a bit confused. I have been reading other peoples questions posted here but still do not have an understanding of what is it is that I would be doing once buying this. Is it a program? And the last thing id like to know is how much time does this take you to make the 300 a day? If you could pm that would be awesome!

Well i bought the premium edition of this ebook and i don't really like it (pls don't falme me for my personal oppinion). But i don't like it because it is by far not that easy to make money with this method than Dignus provides. Which should not mean that you can't make a bunch of money with this method, but most of the method definetely depends on luck. Additionally you have to do a lot of research every time you are trying to make some money with it.

best regards

Tested on 10 different companies , OP guaranteed an average of 2 out of 5 would reply / convert.
So far got zero answers from this, not working at all !

Also, this can hardly be considered a monetizing method, this is just bs to steal your money. Takes time and produces no results , beware !

How many hours do I have to spent for that per day?It really depends how much work you put into it. More work = more money. The possibilities are endless really..

For \$200 a day i'd say 2 - 4 hours each day for a regular person. If you're fast, it can be more than that and less time.

So let's say I just don't like it even though I made a lot of money, would I get a refund? (If I make money I won't refund) If you make money you don't get a refund, that wouldn't make much sense to refund you if you made a lot of money. The refund option is for people who had no success.

How much time before our first earning ? That's fine!

You do not need any experience for this method to work. You should put in 2 hours to make \$200 a day. You can see earnings within your first day.
