Thread: [Whats a really good FUD crypter?](#)

Christheman21 - January 6, 2014, 8:38 pm

I just bought the Cypherx crypter yesterday, and I can tell you now that it is a piece of junk. I've requested a refund, but in the meantime I'm looking for a reliable and legit crypter. Any help will be great:) Please PM, since I cant.

Mortex - January 6, 2014, 9:01 pm

The only crypter I have used consistently for about 14 months is DarkEye.

I have tried a few other crypters over the last year but have always went back to using DE and will continue to do so.

It's not cheap but on HF you get what you pay for.

If you pay peanuts, you get monkeys.

Check out the reviews before you buy a crypter :P

I also have a FUD crypting service if you wanna check it out ?
