[Saikin, Imoto no Yosu ga Chotto Okaishiin Da Ga -> Saimouto](#)

(Recently, My Little Sister is Unusual) <http://www.crunchyroll.com/recently-my-sister-is-unusual>

Number of seasons: 1

Number of episodes: 12

Genre: Ecchi/semi-incest

For those of you that have seen the first episode...are you still horny?

Let me fill you in on this deceptively erotic title. Upon selecting the first episode of Saikin, Imoto no Yosu ga Chotto Okaishiin Da Ga, I received a warning screen asking me if I was over the age of 18. I thought to myself "Why on Earth would something, most likely akin to the ever popular "Oreimo", require such discretion?

I'll tell you why. It's a fudging hentai. You've all probably seen "Highschool DxD" and "So, I Can't Play H?" and they had the occasional (frequent) titty flashing and pseudo-erotic scenes right? You consider that borderline hentai right? Then idk wtf to classify Saimouto as because it was a legitimate sex scene (assisted masturbation) in the very first flacking episode. It's not even a spoiler at this point....it was just a random sex scene (albeit censored into the fragging floor) in the middle of the first episode....

So, porno scenes aside, I can actually see myself watching this anime. It seems to have decent writing and I really love the female voice acting. Story line is fairly original but the overall plot is generic. Regardless, the loli skin show will probably keep me watching this anime until fruition even if it takes an absolute nosedive.

My first impression: Holy crap that was hot, now what about the story?

Your thoughts?

I can't seriously watch this for the "plot", it only panders to my fap needs. Is this seriously being aired in nip land?

Well, so far as I can tell, that was the only actual scene with moderate fan service. Most of the rest of the story was (forcing) humor or actual plot. I really can't get over the voice acting either. The father seems like an interesting fellow as well. I haven't read the manga so I have no idea what exactly to expect but if they can jam both an intriguing story AND amazingly erotic loli into one story, count me in.

I don't have my hopes set too high though. I fully expect this turn out like every other ecchi romcom: Horribly narrow minded and shallow.

I watched the first episode two days ago, right after Space Dandy. Every season, there's an anime that I set aside until it comes out on Blu-ray. This season, it's this anime.... XD

I think i need to watch this now... For research of course...?

She has a chastity belt on...? Thats no fun.

Also censoring like that should be illegal.

Ah, but this chastity belt comes off now, doesn't it? Even if it's just for three minutes for every hour. I'm sure they could make things work if they wanted to... XD

According to a random PV I saw once, she has to be all lovey-dovey with her bro otherwise she'll die.

So, does this have those annoying streaks of light that have no earthly reason to be there?

No, giant ass black lines and huge hearts locks instead.

Tbh I see myself finishing this regardless of the borderline hentai (which I have thought for many series. E.g. DxD, Freezing, Dakara watashi wa H ga Dekinai, To LOVE-Ru, etc..

My personal thoughts on it is that it's probably going to be quite interesting seeing how this turns out (and if the uncensored version will still have censorship LOL).

rinluvr - January 7, 2014, 11:18 pm

Just watched it and all I can say is that I do not appreciate censorship.

Freezing is definitely close to hentai. But I'm not watching censored anime, its extremely annoying.
