Thread: [\[The Empire\]\[Winner Picked\] HF's One of a kind: Paid Sticky Contest \[L33t/Ub3r\]](#)

Weebex - January 8, 2014, 3:23 pm

This contest is in name of The Empire

The winner will be chosen very soon, I will take a screenshot of random.org of the winner, so hurry to get a chance to enter

The Winner is The Conjurer

I currently have \$45 in my paypal, so I can't do paid stickies higher than my balance. I came up with this idea a while back, and there is no rule regarding it, so it is allowed. Now this is for l33t and ub3rs only.

Requirements:

- Must have been on HF for a year
- No valid scam reports
- No warning level
- Must have 100+ rep for both leet and uber

Use this format in order to enter:

[b] This contest will be up for a month or more to have everyone to have a chance to enter. By the way, put some effort into your applications, I do read these. BUT! The winner will be chosen via random.org, your post number is your entry number.

Good luck everyone!

Why do you deserve this: I deserve this as I have put a lot of time developing this product, I also believe that I have contributed a lot to this forum by selling my product by having contest myself such as giving away the litecoinage award to a member, aswell giving away lifetime license of my software to a winner of another contest.

What are your thoughts about this contest idea: Very exceptional and different than most sections.

Why do you deserve this: Because I've helped so much people in that section so far and I think that by getting such a thread stickied I'll be abld to help a lot more as well. I know a lot when it comes to psychology and so does my partner so if people see a stickied thread I have such a higher possibility of having people PM me for advice and I'll be able to give them GOOD advice. I'm also going to be earning 0 money out of this but more like ethical causes.. such as making me feel better to help people, that is.

Why do you deserve this: I've been constantly bringing innovative products to HF from Camtrix to Voice Programs/Unsaturated eBooks and HQ VCW's that have been never before seen. I'd like to say i'm one of the few on HF who is actually experienced and knows what they're doing. I always try to create something new & fresh instead of the same copied & pasted crap you mostly find around the forums, That is why i deserve this sticky. :)

Nice idea, I saw the thread when you asked if it's allowed or not, and after that I started stalking your profile to make sure I won't miss it ?

I'd love to apply, but I don't have enough time to manage my project at the moment, so I think you should give somebody else the chance to win this.

Good luck to everybody!

What are your thoughts about this contest idea: This is actually a very unique and original contest idea. To be honest this is actually the first time I have seen this kind of contest.

Why do you deserve this: I think I deserve to win this sticky because i have given many things away to the community which was bought with my own personal money. I have never had a sticky before so this would be my first. I would purchase one on my own but I do not have the money to do so. Having a sticky can help bring more traffic to my site which i am really in need of. If I win this i will below very appreciative and will love you forever.

Thanks for this great opportunity to win a sticky and keep the original ideas coming.

What are your thoughts about this contest idea: It's a one of a kind, haven't seen contests like this so far on HF, this would be my first one. I find it very unique tbh, good job on surprising HF.

Why do you deserve this: I have given and contributed to HF so much, I feel that I should deserve something back. I am not saying this as if I wanted something from the starting, its just my time of need atm for some cash and with this ebook sales it could happen, recently sales went down really bad so I am looking for some help I haven't got any money to invest and this would really help me get some sales, the sticky would attract customers helping me alot.

- I will update this with a much longer reason later as I'm busy atm.
