Thread: [New progressive house release](#)

?!???po?N? - January 11, 2014, 1:44 am

Hey guys,

I've made a new progressive house track in collaboration with 2 producers from germany. Check it out now and let me hear what you think about it.

My soundcloud: <https://soundcloud.com/ramon9585w>

Maskin - January 11, 2014, 3:44 am

Good job. Nice kicks, sounds well with the basslines. Not a big fan of progressive house but I'm not going to dislike something because it's not my music taste. Overall, I think it was good.

BlackCodez - January 11, 2014, 3:48 am

Holy fucking mother of shit. This was actually some really good shit! Not a progressive house kind of guy more of a hardstyle guy but I gotta say this shit is actually something I can listen to! Good job man, you should try uploading this to youtube and spread it everywhere and try to get famous! :D 3:56 part is fucking great!

?!???po?N? - January 11, 2014, 4:02 am

Well thanks for your positive reply's guys.

Maybe gonna put it on youtube, gonna ask this to the 2 producers from germany.
But thanks for the good feedback!

B K - January 11, 2014, 4:03 am

This is nice as hell!

Should definitely put it on YouTube!

Good luck with future projects man!

Anubhavr - January 11, 2014, 6:11 am

Hey man ,

Your music is good and so is your taste. ...

what Software are you using??

even i create music....but i use Fl Studio 11 ... You?

BlackCodez - January 11, 2014, 8:42 am

Dude, this song is stuck in my head right now! I will share it for sure such an amazing track! You should upload this to spotify no kidding!!

Listened to it like 10 times in the past 3 hours!

Send it to some house record label company!

SkyGuy - January 11, 2014, 8:53 am

Awesome song. Glad to have you as part of our EDM sector. :)

?I???po?N? - January 11, 2014, 3:43 pm

Well, thanks for the feed back guys!

I really appreciate it if u can leave a comment or a like on soundcloud itself because it really helps me and t0m & dext to get bigger on sc.

tolich94 - January 12, 2014, 2:39 am

Damn I really like it! Always been a fan of piano in progressive house so you got me there. I like the overall vibe and everything else is good, kicks, bass. I LIKE IT!

?I???po?N? - January 12, 2014, 4:26 am

It is on youtube now:

Pacman Reloaded - January 12, 2014, 5:08 am

Not really listened to this type of music before, but i'm very impressed! Well done.

Thanks for the feedback man!

I appreciate it.

??nsomnia™ - January 12, 2014, 11:18 am

Idk what it is but that melody sounds extremely familiar. It's a really good song.

?I???po?N? - January 12, 2014, 11:07 pm

Familiar to what song do you think?

Antinormality - January 13, 2014, 1:36 pm

Very impressed, mixdown could've used some more EQ'ing to the highs.

Sidechain is very smoothly done, yet I miss some warmth to it idk, don't take the whitenoise out as whole leave it in at like a very subtle -20DB?

Overall it's a nice track just the mixdown is not 100% on spot (one does not simply get a mixdown 100% on spot tho).

Has abit of Avicii style to it.

?I???po?N? - January 13, 2014, 2:47 pm

Has abit of Avicii style to it. Well thanks for the tips, I'll try to mix/master my next track a bit on a higher level.

danno99 - January 15, 2014, 2:55 pm

Brilliant song, The BPM doesn't sound like it's about 128-130 tho just a bit fast but holy mother god damnnnnn. put some vocals onto this and you have something extraordinary

?I???po?N? - January 15, 2014, 3:25 pm

Thanks man! ?

Working in some heavier stuff now, Called big room house.
Don't know how to get good vocals, otherwise maybe gonna do this.

GotStats - January 15, 2014, 4:39 pm

I love the music, it all blends in real nice, I give you HUGE props for this, its not the easiest to make this good of a track.

Yewufeeef - January 15, 2014, 5:31 pm

Really nice man! Keep up the awesome work :D

I used to produce music myself a few years ago when i was about 13 but i gave up on that and got into computers more. Are you just looking to make whats in the spotlight?

Also play around a bit more with cut-off and what program are you running?

?I???po?N? - January 19, 2014, 11:03 am

I am using ableton live, in my eyes the cut-off is alright.
It will fuck-up your song if you play to much with your cut-off filter, i mean it depends on what synth you are using.

tomanddexe - January 20, 2014, 1:50 pm

Thanks for the feedback guys :) We are really proud that you like the track :)

Hallonpop - January 21, 2014, 6:41 am

Hey man! really liked it, dope mix, keep it up :)

Sylenth is good when using it especially on the build ups on progressive house, thats what i used to do

?I???po?N? - January 22, 2014, 2:34 pm
