Yugurt,

Please don't be mad at me, but this isn't easy. No autopilot.

You must always work and a beginner can't win the amount called you.

Good luck !

It's centered for me. Could you take a screenshot of what's wrong.

xVulnerable - January 18, 2014, 12:22 pm

It's centered, but the thread design width is too big so the user has to go to the right to view the full page

Bought this ebook just now, waiting for the password and I'll post my results =)

EDIT: Received it.

Very original method, too bad some asshole leaked it (only to me via PM). But it is most certainly not autopilot, contrary to the OP's thread. To be honest I don't really think you can make a lot of money with this. You also need to invest a fair amount of time.

This is my honest review, and I hope my opinion will be respected. This is not 'sales trashing'.

This does not work in the generic way you mention.
