Wish I could write a review on this, but the people aren't responding to my application -_-

I would also like a vouch copy :)

Thanks Eminem.

I'll take a vouch copy, I've written many HQ reviews in the past!

I'll take a vouch copy, you can check my rep to see if I'm trusted.

I would take a vouch copy and make a review if you like. Also i would suggest changing your thread layout. All those different colors look absolutely horrible on the eyes.

Eminem? - January 12, 2014, 2:28 pm

Aight guys I'm not giving all of hackforums a vouch copy lol. I've decided who will get, please stop posting for a vouch copy.

Thanks.

Vouch for OP. Seems like a good method, and requires a lot of work to get started and make

money. This eBook will not disappoint you, and I've never seen this on HF before. It's a unique method, but again, will require to do a lot of work.

Thank you for the review. And as I've mentioned to you, there is no simple point and click method to make you thousands. If you want to make good money, you need to work even a little, and that is what this ebook is all about.

Thanks.
