Thread: [FREE THREAD DESIGN | ANIMATED GIF \[FLAT DESIGN\]](#)

Jobs - January 12, 2014, 1:40 pm

My other thread got closed, so here I am again.

I recently made a thread design template in Photoshop, which I'm feeling like sharing with the HF community. It can be edited and personalised for your needs, and it's organised with folders and layer names.

Jay???? - January 12, 2014, 2:42 pm

Nice design, but personally I would have added a slight delay on the beginning of the animation, just so people have enough time to see it begin.
