Personally I am a big fan of mja's and color burn's work, but I like all work. Good job.

Clown? - January 17, 2014, 4:09 pm

Loving the look of mja and ink heart's line work. Color burn's animation work is great also. Good job overall guys.

OsLay - January 17, 2014, 4:26 pm

ink heart and mja's are dope. My favorite has got to be mja's ape with a beanie though.

Jobs - January 17, 2014, 4:33 pm

Color burn's animations are amazing, and the other work is impressive aswell.
Great job everybody.

I like them, they look great man. Good job!

Moji - February 15, 2014, 7:25 am

Looks really good, I like ink hearts work the most though ?

Strider - February 15, 2014, 8:48 am

Man, Color Burn's work is awesome! I gotta work on flat animations, they look great. The rest was good to, but I feel like it's not on the same level as Color Burn's. >.> That's probably just because I'm into animations at the moment..

Then there's BagHead's stuff. Definitely looks the best there.

Was the blizzard one completely created by him? or did he use examples/renders? If not damn that looks really really awesome.

It's a digital painting so he wouldn't have used any renders - just various brushes.
