Thread: [\[FREE\] Thread Design #3](#)

Maldini - January 16, 2014, 12:57 am

Hey guys, although this didn't quite turn out like I wanted it to, it's not that bad, I guess.

If you wanna have this Flat Thread Design, just send me a PM and/or answer in this Thread.
Be sure to check out my other Thread Designs, too!

As always, you're free to use it, but I'd be very delighted if you'd give me credit for it.
Fonts are inside the download.

Hope you like it!

P.S.: Give the preview its time to download.

That's pretty unique, dude. Don't see many thread designs like that around here. Not really a fan of the colors, though. None the less good job!

Oh the lack of contrast is PAINFUL. However, the overall theme is very original which you deserve kudos for. Kudos! ?

DayZ - January 18, 2014, 3:21 am

I would love this theme, please PM me! :D

I strongly dislike how you've linked each section with the chain, as it looks horrendous.
