- AXiS' honest eBook Review -

I am no way affiliated with ThaTr1kz

Just thoroughly read the Keys Madness eBook. Although it needs an initial investment, this eBook has the potential to make you a lot of profit - the bigger the investment, the more profit.

Originality:????

I have heard of similar methods before, but no explained as well as this. The seller goes into detail, and explains each point very well.

Grammar: ?????

There are no major grammar errors in the eBook. It is very easy to read and understand, even by the members who's first language isn't English.

Layout: ?????

The user has made it easy to follow the steps, and has included screenshots which will make the

process of following the instructions much easier.

Overall: ????

Using the support of the author, you could make a good amount of money using this eBook. It requires an investment, however the larger the initial investment, the larger the profit.

If you want to make money selling keys, i would definitely recommend this eBook. The author also gives examples, helping you sell more and increase your profits. Also, this is a white-hat method, so you have nothing to worry about on the "Will i get in trouble?" end. Vouch for ThaTr1kz .

Kind Regards, AXiS ?

D4rk0 - January 16, 2014, 6:54 am

I am in no way affiliated with ThaTr1kz, this is not an official review.

Quality: 8/10

This eBook shows you a business model which can really be profitable if you pull it off correctly. However, you have to invest a lot.

Originality: 7/10

The business model is used a lot and you might have some competition. However, with all the information given you will learn new things.

Ease of use: 7/10

This eBook shows you the best websites to buy and sell your CD-Keys. You have to really invest money to make this profitable, you will not get far with less than \$100.

Grammar: Good

As I am not a professional English teacher I can not say this for sure, but there were little to no grammatical, punctuation and capitalization mistakes.

Layout: 7/10

The layout is pretty good. There are a lot of screenshots which are actually useful. The font is pretty standard but good.

Overall: 7.3/10

If you have a lot of money to invest and you want a legit business model, this eBook is the way to go. You may have a lot of competition, but if you have a lot of money you will make a big profit.

Please do note: This method is white-hat.

With that said, GLWS!

Hycca - January 16, 2014, 6:59 am

I'd buy it, what really bothers me is that you can't afford to buy ub3r with your 5k/month.

Sautéed - January 16, 2014, 8:42 am

Good luck with your sales! Looks solid.

Content (9/10)

--

This eBook is very original. Very unique take on getting games for cheap

--

Grammar (10/10)

--

There has been no grammar mistakes that I noticed.

--

Originality (8/10)

--

While I've seen some of the websites before, I've never actually tried it out, so this is quite original.

--

Ease of use (9/10)

--

Very easy to use. Easy to read, nicely formatted. I had no trouble understanding the content at all.

--

Overall (8/10)

--

Overall very good eBook. Well worth the money that you need to pay. Look no further if you want to get into getting tons of keys for cheap!

As you may have readed from the upper reviews, this method requires investment and I actually don't have anything to invest (I'm a student). Also I sincerely won't buy a subscription on a forum, as I think it's pretty useless..
