if anyone can help me out please PM me, i already have backtrack 5 and a linux vm, i can tell you my teamviewer

DrDinosaur - January 18, 2014, 1:57 pm

Stop with all of this low quality shit already.

TeamBonesaw - January 18, 2014, 2:36 pm

dude wtf man, you asked me to ask a specific question then you say im low quality once again, you always do this whenever i need help, seriously, get lost.

DrDinosaur - January 18, 2014, 4:32 pm

This is no where near specific, you're in the wrong section, you don't even care enough to use first grade grammar, and you're so damn dumb and lazy that someone has to do it for you over Teamviewer. Why don't you learn something for once and stop being a damn lazy idiot?

Well someone just pissed off DrDinosaur

And he is right btw, you are in the wrong section.

If you still need help let me know. Sorry that the other users are lashing out at you because you seem new at this. Again just let me know.
