Thread: [Nexpose not running>.<](#)

d0nj@n - January 19, 2014, 7:30 am

hey guys,

i face problem when running ./nse.sh in Linux

anyone pls advice!

DrDinosaur - January 19, 2014, 12:24 pm

I'm pretty sure running Nexpose in Kali is a known issue and I don't think anything has been done about it yet.

_Silky - January 19, 2014, 1:18 pm

Yeah, Nexpose doesn't work well with Debian in general.

d0nj@n - January 19, 2014, 1:28 pm

Thanks mates for the info. which vulnerability scanning tools best for Linux that u may recommend?

DrDinosaur - January 19, 2014, 1:30 pm

I think Nessus works in Kali, but I forget.

Heard about nessus too. no worry, will try it out anyway. thanks mate?

anyone experience openVAS before, how it works with Linux?
