Bontoxilysin - January 21, 2014, 12:03 am

Just bought it. I would just like to post a quick review. I honestly have never known/talked to Liger, but this eBook had a vibe that I couldn't resist. I would like to say, I haven't received money yet, but I can post in the future of my earnings as proof. This is not an official review.

1. Content:

The eBook is straight to the point, no bullshit lectures. That's very good and hopefully other eBook's can learn from this.

2. Grammar:

The grammar is great, no mistakes. I had no problems understanding it. This is definitely newbie-friendly, and as thought-out and detailed as can be.

3. Originality:

This, I'm sure there are a few eBooks out there that are SIMILAR to this, but then again, you're really paying for the quality, how it's written, and the support. So I wouldn't be worrying about saturation because it would be a cold day in hell when this becomes patched/saturated.

4. Setup:

I was actually surprised, it didn't take a lot of time at all, if you're slow like me, it'll take 10-15

minutes from the time you receive the download, to the time you finish reading and go do something else.

∴ Overall ∴

This eBook is very simple, looks like a legitimate method, that can benefit you in the future using the sources provided, the only thing bad about this eBook is the amount of time you must wait and the small investment. Once again, I have not received a payment, but I will edit or post back when I do with a screenshot.

GLWS ?

I have bought this guide and so far it seems promising. Liger has been able to answer my numerous amounts of questions in a short amount of time showing he's dedicated to his work :). As it says this is 100% Auto pilot after about at 5-20 minute set-up. You can even get creative and increase your profits with your own twist. The investment is very miniscule and you make back WAY more then you put in. This is not explained in the guide that i had gotten nor the thread but it seems you can only cash out once a month. Once i get real proof i will post ASAP. This is true to it's name as a "Money Generator" and it cannot be saturated what-so-ever. Short and sweet but the formatting and grammar could have been a little better. GLWS and have fun making money!
