Thread: [Swift Viewer 2 - The New English Jingling Bot](#)

**Bustingbuster** - January 20, 2014, 12:41 am

It is back. The new and improved Jingling bot Swift Viewer 2 is back.

## Features

It is an English jingling bot.

Your links and others are thoroughly scanned by Phishtank and Virustotal so no more malware.

## Images

## Requirements

A Brain (A recent study told me that 1 out of 100 have actually a working brain. I wonder)

Windows Vista and above (Windows XP Compatible)

.net 4.5 (4.5.1) or .net 4.0 (ldk 4.5 is backward compatible)

VirusTotal : [Click Me](#)

Download : [Click Me](#)

-Thanks-

Sorry, not working....

"The archive is either unknown or format is damaged" .....

**CottleSilver** - November 3, 2014, 9:19 am

"A Brain (A recent study told me that 1 out of 100 have actually a working brain. I wonder)" and then "Windows Vista and above (Windows XP Compatible)" and now the question why not write Windows XP and above?
