Thread: [\[Preview\] Pastebin Bot](#)

geraldososa - January 20, 2014, 10:44 am

So i decided to make a bot for pastebin because is really hard to find a working one.

To Do List:

Get proxys from a text file.

Skip the 24h post limit.

Cool man nice job this can be very usefull.

Xinipot - January 20, 2014, 10:46 am

Looks sick, could potentially be very useful.

frontenhack - January 20, 2014, 11:26 am

Is this using pastebin api? if yes you should provide a textbox where user could put api key, also is Guest , not Quest. Btw great job :D

geraldososa - January 20, 2014, 11:28 am

The api key is generated for them. Do you mean the developer key?

Seriously, whats the point to have Pastebin bot?

Fill pastebin's databases with crap?

OldFag - January 20, 2014, 2:05 pm

You should utilize your abilities in creating something that is useful.

Looks, nice, but what is the use of it ?

geraldososa - January 20, 2014, 2:16 pm

The use is if you want to spread your virus you can make 1000 pastes with your virus link.

His point is, pastebin is a great service, it helps anyone who needs to transfer large walls of text, whether it be Code or a Crashlog...

And here you are, making a Bot, which will help add to the pile of crap in pastebin already?

What is the point of this anyways?!?!? What do you gain from spamming the same wall of text to pastebin x times, especially when no one ever trusts random pastebin links....?

Spread virus link via Pastbin. ?
I like that you made something that YOU find usefull.
Because for me it has no use.? Don't take it as an offense.

We are a programming community. As a community do you think many members will appreciate a pointless attempt at annoying a valuable programming resource. I understand being a "hack forum" we might get childish and pointless ideas. But One that attacks a programming resource is worse then pathetic.
