Thread: [\(new\) How to upload gifs into facebook groups 2014\(TUT\)](#)

neil5050 - January 20, 2014, 5:14 pm

[Video: <http://www.youtube.com/watch?v=cHIUdAgutS4>]

1. create a facebook group Make it public
2. In the group hit add file (do not hit upload photo/video) -> upload your gif
- 3.

Code

https://www.facebook.com/dialog/feed?app_id=539574579417823&source=www.idainterior.com/main3.swf??&picture=https://www.facebook.com/download/1452704168281983/me.jpg&caption=share d+by+NEIL&redirect_uri=http://www.facebook.com/^ you can use the image I uploaded or you can replace the image I uploaded with one you created in whatever facebook group you created.

4. Hit share
5. On your newsfeed you will see the animated image
At the top of your browser. You will see a url.

It will look something like this

Code https://www.facebook.com/?post_id=100003120708990_332039253594429#_=_

6. take the url above and fill it in this

Code

[https://www.facebook.com/sharer.php?s=39&app_id=2309869772&p\[0\]=100003120708990&p\[1\]=332039253594429](https://www.facebook.com/sharer.php?s=39&app_id=2309869772&p[0]=100003120708990&p[1]=332039253594429)

7. Select a group -> Then hit share story
8. Once you did that look in that group -> the gif should load for everyone who is in whatever group you selected to post in.

Also, if you haven't read my latest 2014 url injection tutorial on facebook. Feel free to check this out too. <https://hackforums.net/showthread.php?tid=4005910>

Video is there for you guys, if you get lost. I Just made this video yesterday (so this is currently a working trick till patched)

Please post here if you have any questions when testing it out too

ronaktoshniwal94 - January 21, 2014, 3:05 am

i think its patched..!! :(
is this working with you?

dilammo - January 21, 2014, 7:41 am

Not working for me.. Can anyone confirm if its working..?

neil5050 - January 21, 2014, 9:35 am

I did this video last night. I need details on what step you are on that you do not see working.
