Incognito™ - January 20, 2014, 10:01 pm

Hey guys, sense I'm new here id like to start off by putting my best effort into helping the community.

For the next couple days I will help ALL users set-up there rat.

Unfortunately I do not have any salves so I cant test your stub, but i am sure you can use <http://anubis.iseclab.org/> to test it if that method still works.

PM me with any questions or a TV request and ill try to do my best and help you figure out your issue :)

List of rat's I can help with.

Cybergate

Darkcomet

Paradox

Emissary {NET}

Still getting used to Blackshades but I can help with that as well.

-Electrolyte
