Thread: [Netflix Checker | Fastest Netflix Checker on HF](#)

HelpMePl0x - January 22, 2014, 12:29 pm

So before I decide on selling this thing I was wondering if people would be interested in this.

I haven't seen a faster checker and it has multiple features.

Remove Duplicates

Check if account is valid

Check subscription (streaming or not)

I'm uploading a video right now so I can show the speed. Would people buy this?

There are a lot of UB3R members offering this service for free, so i'm not sure many people would buy it ?

Plus there are free tools out there.

I've updated the OP with a .gif. So far it seems as though I shouldn't sell it.

You could give it away for free in the Free Services and Giveaways section but I doubt many people would be willing to pay for it.

What if it was a small lifetime fee? With updates?

Personally I have no interest in this program; however, if I was interested, that pricing model would be far more attractive to me than a subscription based one.

Any idea what it would be worth if it was lifetime?

I don't know quite honestly, bearing in mind the price of 'flix accounts \$5 sounds fairly reasonable. Like with many things, there's an optimum balance of price/no. customers. If you sell it for \$25 obviously each sale generates more revenue. That said, you're probably going to sell considerably fewer copies. On the plus side, it's not a crypter. The number of copies you sell doesn't scale with the longevity of the product. Play it by ear, no need to set a price in stone.

mohpip0 - October 31, 2014, 4:45 am

Trackerus - January 29, 2015, 12:00 pm

u can hae this for free, so why pay you?

not very smart

Comedic - January 29, 2015, 12:33 pm

If somehow this stands out and is unique compared to the others that are offered for free, then I'm sure people will buy it as long as the price is right.

Assailant - January 29, 2015, 1:00 pm

Why would anyone need a program to do this when they can just log in on <http://www.netflix.com> and check them all themselves?

@.@ ([Click to View](#)) Must I even mention that was a joke? seen a few of these for free, so I doubt anyone would pay for it, sadly.

acard - January 30, 2015, 11:48 am
