Insanity? - January 23, 2014, 9:37 am

Welcome HackForums members.?

Today I've decided to give something back to the community.
This is a free crypting service, for all members that meet the requirements below.
Please stick to the format; if not, I won't crypt your server.

Requirements

- Neutral/Positive Reputation
- Over 100 posts

Format

- 1) Build your stub so that it has NOTHING added to it (i.e. Start-up, Persistence, ECT...)
- 2) Upload your stub to 'ge.tt'.
- 3) Send me a PM with what features you want added (Start up, Icon) along with the link to your server.
- 4) Wait patiently for a reply.

If you have any further questions, please comment below or send me a PM.
If you want to speak over Skype, then please PM me with your Skype username.
Thank you.
