Thread: [Nori: Anime Search - Celebrating our 1 year anniversary](#)

**Dragon.** - January 23, 2014, 8:48 pm

Thank you all so much for your overwhelming support for my project over the past 7 months.

Hey guys. This is what five days of boredom and a bit of creativity produces. ?

I needed to test my new ranking algorithm, so I put together this nice and handy Anime Search site, called "Nori." At the moment, it's still in the beta stage. I'm hoping to push it to the final stage (production) soon. It currently has over 250 million pages indexed. I do keep the crawlers running 24/7, so the count will be much higher.

If I appeared to miss a series, please post so below. I will try to get it indexed within 24 hours.

Thank you.

Thanks guys. If you really enjoy it that much, please share it with others so that this site (and my efforts) won't go to waste.

I've started work on a v2 of the current crawler. It will have to ability to index ~100 URLs/second, which will allow for real-time updates on all shows.

Maybe you can add a "do you mean..." function, just like google?

Like: '>shigeki no kyojin<' do you mean '>shingeki no kyojin<'?

Don't know if that's possible, but that would be awesome ^^

Thank you so much!

I'm currently still investigating into last night's crash. The crash involved the corruption of the DB. Fortunately, I had backups.

I will be sure to add those in soon.

EDIT: Added to queue.

EDIT2: In our primary DB, it looks like most (if not all) of these are indexed. Thank you for your contribution.

Last night's issue was successfully resolved. We are back on our primary DB. Sorry for the downtime.

Trying to keep this in the fewest amount of posts possible (so it does not look like I'm spamming this thread).

Background has been changed. :)

I really like the design of the site as well as it's functionality. Well done!

Two suggestions:

When you hover over the text on the nav bar, you could make it transition into a different colour ?

Instead of updating the wallpaper all the time, couldn't you make it change dynamically?

My suggestions aren't ones that would really make a difference to the site's content but it would be nice to see them implemented. ?

Glad I can now find some good anime's to watch :)  
Finding good anime was never difficult, but this makes it substantially easier.

Please make an option to create a account, so we can choose from a list of wallpapers.. Or upload our own (Don't know about your disk space/bandwidth). Because i'd like to keep using the Yosuga no Sora wallpaper after it's changed.

This anime search engine works good, I am able to search various anime in it.

**ToothPaste** - March 14, 2014, 11:29 pm

Wow, this is actually highly interesting. Not only do you listen to the people's opinions then implement them you consistently ask for feedback in order to make the site better. We could all

learn something from this guy.

Thank you for all of your valuable support. :)

**arkkado** - March 16, 2014, 6:25 am

Nice. The site is well designed. I can use that information displayed to organize my order of view. This makes things simpler for me. Thanks.

Man! it is nice to have all that information in one spot. I normally use animefreak.tv to research before I watch, but your website is much more convenient. Will be using it on the regular.

Are you considering adding a search by category function?

We will probably add this in the future. It would require quite a bit of tweaking to our current algorithm.

@Dragon.

I can't compose emails yet. I need 25 qual points. Is it ok if I answer on this forum?

**Dragon.** - March 18, 2014, 1:13 pm

That's perfectly fine I suppose. If you have Skype, it might be easier for both you and me.

Please post your Skype and I will add you :)

That might be a bit of a stretch.

We've been trying to implement this feature for quite a while.

**Kenjataimu** - March 19, 2014, 2:39 pm

Really good site.

If you like anime I suggest you use it.

**#BORNE** - March 19, 2014, 2:41 pm

I am very new to Anime but I am enjoying it alot so far and I cant wait for this website it will be ever so helpful and the design is simple and clean.

Keep us updated OP.

**TitorTitan** - March 19, 2014, 3:05 pm

This seems cool. If you don't mind suggestions, here's one: What about subtitle submissions for anime and the ability to search dialogue? This would make for some pretty fun metrics, like data on what words are used the most, you could compare subtitles from different groups and see how they compare, among a bunch of other things that haven't even been thought of yet.

**gbameow123** - March 19, 2014, 9:31 pm

We are finished developing this feature.

We will be releasing quite a few updates soon. We hope these updates will aid user experience on site. We also have plans for partnership and advertising spots that we hope to integrate on our next update.

**eight** - April 1, 2014, 1:53 pm

Seems pretty tight. Would be cooler if it picked up torrents ^-^

**Dragon.** - April 3, 2014, 1:29 pm

Sorry for the late update guys. I had a bunch of schoolwork yesterday and was unable to update the site.

Updated now with a wallpaper from Hanasaku Iroha.

@eightworks Torrents are included. However, our index of them is limited. We'll be adding more soon. Thanks for the suggestion!

**DoubleRainbow** - April 3, 2014, 2:57 pm

Just as a note, your contact and news pages are difficult to read with the transparency setting you have on those divs. You may want to fix that or something.

Also a dynamic background, I think, would be pretty cool.

**Dragon.** - April 6, 2014, 5:33 pm

Happy Sunday! We have updated our wallpaper. Enjoy a wallpaper from Nagi no Asukara, a recently finished Drama/Romance Anime from Fall/Winter of 2013.

--

Also, stay tuned for next weekend's update! We'll be adding some of the features suggested above and much more! :)

**Dragon.** - April 10, 2014, 1:45 pm

Sorry for the downtime. We ran into a bit of trouble with our registrar. The site is back online though :)

Also, please suggest an Anime to be featured on the homepage. A presentable and clean wallpaper would be preferred. Thank you!

**ZYZZ BRAHHH** - April 10, 2014, 5:05 pm

**Chips Ahoy McCoy** - May 2, 2014, 1:05 am

I have an idea for this search engine. not sure if it'd be possible though.. kinda like sorting between Dubbed, Subbed and Raw. kind of like boxes which you can enable/disable to search specifically for those types. i think that'd be cool.

**Dragon.** - May 2, 2014, 9:37 pm

Whew. Finished DB upgrades and migrated us over to a new beefier server.

Thank you for the amount of searches we have received. We estimate them to be in the 50 - 100k range now :)

It isn't impossible. I'll try to see if it can be integrated with our current algorithm.

I apologize for the delay in getting the update out guys.. we keep running into security problems. It will be out soon though. :)

**Dragon.** - May 7, 2014, 7:14 pm

Since the summer season is ending, I figured I might as well do this.

For the next few weeks, I'll be featuring series that aired this past season. Please start suggesting series!

First up is: Mahouka Koukou no Rettousei.

Barakamon/Gekkan Shoujo Nozaki-kun both are amazing and are being overshadowed by the typical action anime!
