Very cool man, fantastic design. If you would be interested maybe you could do some work for me?

Very HQ vector work, definitely one of the best pieces I've seen. How long did it take you?

Took me about 30 min to sketch and 3 to 4 hours to vector.

Not inspired by Inkheart, just inspired by some of the same places that Inkheart was.

lenaos - January 25, 2014, 4:15 pm

Some of the drips could be more "smooth" and "drippy" if you know what I mean, but overall it looks nice.

Tjockisen - January 25, 2014, 4:47 pm

Nice vector, I want to get a graphics tablet and get into it just because I have a laptop not a desktop cpu, So track pad vectors are a piss off. Get arthritis pretty quick ;) 9.5/10

I don't have a tablet, but it would probably help speed up my process if I did so I am thinking about it myself.

Vexem - January 26, 2014, 4:44 pm

The overall things look pretty good, but I really love the background. The colors harmonize nicely.
