Do you want to learn how to easily earn free Amazon gift cards, Xbox live points, Facebook, iTunes, and Gamestop points?

This website allows you to finally get all these for free!

What you need:

Computer,
Internet,
one link!

What you need to do:

When you go to the website, you will get a link to send to other people. Each click is one point.
Good luck!

Just some of the examples you could earn!

I tried using this before, but it never wanted to give me my rewards :/

To redeem the reward you have to do a survey

You should also include that in the thread

Edit :

After you finish the first survey you have to do another to "claim the prize"

Ten after you're done with that it told me I used a survey bypasser when I actually did the survey

I have adblock so the survey does not show up for me.
