Thread: [Twitch.TV Shop - Live Views - Channel Views - Views start at \\$3 for 1 Hour!](#)

Brinkerz - January 25, 2014, 12:02 pm

Hello, today I am selling Twitch.TV Services.

Today I'm offering you Live Views while streaming and Channel Views!

How will this benefit you, why would I want to purchase these views?

The main reason to purchase these are, the more views you have the higher on Twitch your stream will go.

Say you are playing FIFA 14 and you bot your views to more views than the current highest streamer, your stream will be at the top of the FIFA 14 category, which means that people will click and visit your stream, gaining you real traffic and real followers. These views are also delivered via Private Proxies, and there is no chance you will get banned. When you become a twitch partner you can earn money from streaming! But becoming one is very difficult, but with our service, you might be able to eventually earn a partnership.

How long can you deliver views for? Will they last for 10-15 seconds like most other services?

Absolutely not! Our views are delivered through Private Proxies and is not done the way all free Twitch.TV bots are. These free bots cannot give you more than 10 views for longer than 15 seconds, and it DESTROYS your internet as all it does is open multiple tabs. Our method is nothing like this you may be asking, and we can deliver thousands of views for HOURS! You will always be guaranteed the amount of viewers you purchase and more for the amount of time you purchase them for!

Prices:

60 Minutes:

50-100+ Views - \$3

100-200+ Views - \$5

200-300+ Views - \$9

400-500+ Views - \$15

Want more views or less time?, let me know!
