Nisekoi

Just beautiful, isn't it?

Number of seasons: 1

Number of episodes: 20

Genre: Romcom, SoL

Up to episode three at the time of this thread being made. Shaft's most recent gloriously good anime venture, [Nisekoi](#), is already getting me all giddy. I'm not much of a harem guy, they are normally just sorry excuses for plot mixed in with cliches and an overabundance of "plot". Not my cup of tea. Nisekoi however, is a properly done romcom harem with all the niceties of Shaft's spectacular production capabilities: Fantastic art, amazing voice acting, orgasmic direction and unparalleled story telling.

Synopsis: Copied from Wikipedia

Code Nisekoi follows high school student Raku Ichijou, the son of a leader in the yakuza faction Shuei-Gumi, and Chitoge Kirisaki, the daughter of a boss in a rival gang known as Beehive. They unexpectedly meet when Chitoge hops a wall and knees Raku in the face. After she runs off, Raku realizes he has lost his pendant which was given to him by his childhood sweetheart with whom he made a secret promise. After discovering Chitoge is a new transfer student in his class, he forces her to help him look for the pendant. During the search, they begin to dislike each other.

Upon returning home, Raku learns that the Shuei-Gumi and Beehive gangs have agreed to settle their feud by pairing their leaders' children. Raku learns that his girlfriend-to-be is none other than Chitoge. For the next three years, they must pretend to be in a relationship to maintain peace between the gangs. This turns out to be quite a challenging task, not only because of their hatred for one another, but also because Raku has a crush on another schoolmate, Kosaki Onodera, whom he secretly wishes was the girl who bears the key to his pendant. Various developments complicate the situation, including Chitoge's over-protective bodyguard, a female hitman, a girl who claims to be Raku's fiancée, and the existence of multiple keys

If I haven't convinced you start watching this, I'm not sure what else I can do. May the anime Gods have mercy on your soul for missing out on this masterpiece. inb4 it ends in a trainwreck.

So far, Nisekoi is off to a great start. Studio Shaft could make anyone giddy with their vivid animation and witty lines. I'd recommend it as well even if you're not into the genre. Pretty interesting premise for a series if you ask me.

KinGxKeV - January 25, 2014, 9:33 pm

Tas recommended me this and I will start it tomorrow.

Ugh, I'd watch it if it had more than 3 episodes out currently. Looks like I gotta wait a few months.

Good to hear a few have decided to check this series out. I can only hope it continues in its amazing direction.

?????? - January 26, 2014, 12:43 pm

I started watching it when it aired, and I'm quite satisfied with how its going. I hope it can keep up the quality, really enjoying it so far.

Read this so I'm going to give it a try. On the first episode.

Ice Queen - January 26, 2014, 12:43 pm

Just a thought but the gangster chick will end up being the childhood sweetheart, won't she?
Please, please let this plot not be THAT predictable and cliché.

Anyways, it ain't the story but the way it's told. I'll look into this.

elemein - January 26, 2014, 12:52 pm

Wait this is a harem?

At first I was gonna watch it cause I thought he was searching for his childhood sweetheart and the pendant just was mass produced.

But he gets all the girls?

No. Nope. Nadda. Fudge this. I ain't watching this anymore.

You know what I meant when I said "all." No need to get defensive and wikipedia the definition. I thought this show would've been a heartfelt anime about forging several relationships but eventually having to break up with them all after he mistakes a girl as his childhood friend until he finds the one he truly loves.

Having multiple partners is a very common theme this year (and many years), and I've just finished To LOVE-ru Darkness OVA, so I have my fill of it for awhile.

To LOVE-ru is an ecchi fanservice fucking nightmare with a wasted plot. Nothing like Nisekoi. The women in this show actually wear clothes and it is much more heavily invested in the story rather than tits and pussy face plants.

I'm very aware of that, but I'm not big on the harem/several-partners concept anyways in animes. The screen time is sectioned off awkwardly in my opinion. I've just had too much of it for now, so I'm not up for Nisekoi is all. It just seems like the anime is something that the synopsis did not originally portray it to be; that's all I'm saying.

Nonon Jakuzure - January 26, 2014, 3:01 pm

Currently there are only two girls involved so it really can't be called a harem.

Watch episode 2. The plot isn't that predictable. Although I had a hunch after the first episode who would be the sweetheart.

Nisekoi is currently sitting at my most anticipated anime of winter 2014.

Yeah, I'll let that sink in for a bit.

Since I read the manga for this (its ongoing) I can say that the plot was pretty good. I just hope that it doesn't have all the filler episodes the manga has been putting out.

I'd recommend watching it.

know it's a little early, but season 2 for Nisekoi has been confirmed. It will air in the Spring season. I guess this means we'll have over 24 episodes. The source says ClariS will be singing the OP for season 2. Personally, I would've been fine with a 24 episode thing.

If you've been following the manga, a second season may not be that exciting of news unfortunately. The manga is going very, very.....very slowly. I hope this shit has an ending :/

Sejskaler - February 19, 2014, 7:42 am

I don't want to follow the manga due to the awesome drawing style...

Nevertheless, I have watched all of the episodes up till now, and it is great, I hope the ending is good, and they keep it around 24 episodes or something like that, 36 might work, but tbh, I think 12 would probably fit better...

12 or 24, but since there is a season 2, I guess I can hope we only end up at 24-36 x3

Great anime

Pretty good episode, new character and possible back story of ChitogexRaku from 10 years ago.

Short little update, Nisekoi will supposedly only have 20 episodes, but will still run until Spring (May, I believe). Would 20 episodes be , or is it decent in length? To be honest, I was expecting 24 or more, since the Manga is a little long.

I've linked the flier I read this from, if anyone here can pick up a little on what it says:

Ichijou has a lock given by a girl 10 years ago, Kirisaki and Onodera have a key.

Either Kirisaki made the promise or Onodera, it can't be both.

No, nobody fucking likes this anime. That is why I told everyone to start watching it and thus far it has 8 pages of discussion despite not being a fucking shonen. It's terrible, you should stop watching it.

Fuck outta here with your low quality shit yo.

Too bad the manga still hasn't done anything conclusive. Makes me think this will be an open ended series.

PROVE ME WRONG SHAFT, MAKE SOMETHING HAPPEN!

Don't open spoiler unless you're also reading the manga.

Spoiler [\(Click to View\)](#) Did they seriously just add another girl into the mix? I think that she's going to end up like Tsugumi. What I mean by that is that she'll like Raku but she won't end up with him.

I actually kinda like her. She's rather mysterious too, we don't know too much about her yet.

I've never been a fan of the 'princess' character who always uses formal language and calls everyone else -sama. Seems fake and distant.

It's too good of an anime. Needs to finish the last 4 epis fast.

cacnecac - April 27, 2014, 4:09 am

Everyone is saying its good, maybe im not far enough into it yet. (Episode 5). but so far its feels kinda stale and generic.... hard to believe it has anything to do with any of the other SHAFT work.

It's a pretty generic harem, predictable, but then plot twists are starting to get thrown around. I honestly can see the ending already, but just waiting for it to happen lol.

You mean the ending that's not even an ending? Yeah I can see that coming as well, seeing as the manga is still going.

Just watched the last episode, definitely one of my favourite animes ever. Looking forward to the possibility of a second season, since apparently only the first 50 or so chapters were covered, and the manga is at 100+ chapters and still going.

With the current sales and popularity, second season looks promising. Nisekoi was just damn good.

Sad there aren't 24 eps because 20 was killer cliffhanger. I loved this so much and I can't believe it is over. I might read the manga now because I'm interested in how shit might go.

I heard the manga has a bunch of fillers and goes downhill from where the anime left off. Let me

know if it's worth reading though :)

Well, it's a tradeoff. Supposedly there were only 20 episodes so they could begin releasing Hanamonogatari once Nisekoi finished, but it got delayed sadly and they made 20 episodes for nothing. Season two of Nisekoi is happening, as ClariS has been confirmed to be singing the second season OP.

Real_FFF - May 25, 2014, 10:16 am

I think the anime is going to push really hard and be a little different from the manga.

Bezo - May 25, 2014, 12:08 pm

I've caught up with the manga, and there's some real unexpected stuff in it.
