Thread: [NTP and XMLRPC Amp lists - Amp 1Gbps server to 50Gbps | VIDEO PROOF](#)

SeaJay - January 26, 2014, 1:46 pm

NTP and XMLRPC Lists

I am selling NTP and XMLRPC amplification lists. For those who don't know: NTP is an amplification method for UDP floods.

XMLRPC is an amplification method for HTTP floods.

All of my NTP lists will get a 1Gbps node attacking at least 40Gbps (I got my Ecatel up to 50).

The price is 100.00 for 1 NTP list. Contact me via PM to purchase

For pricing and details on XMLRPC lists, contact me via PM.

NTP Amplification Demonstration (graph updates around 1:25 in video)

Vouch for this, damn that hits hard.

Capped the graph, nice.

Hardest hitting lists I've ever seen.. may buy this soon..

Understalker - January 26, 2014, 7:08 pm

I may buy this soon, will get in contact soon.

SeaJay - February 3, 2014, 7:40 am

Still selling lists, PM me for more info.

iLikePonys - February 3, 2014, 7:44 am

Seems like an underrated thread. Hits hard as a truck!

Good luck!

SeaJay - *February 5, 2014, 3:08 pm*

Yep, still selling. Just PM me. Online now.
