Thread: [Adding a picture to a facebook post \(NEW TRICK\)](#)

neil5050 - January 26, 2014, 4:08 pm

First you grab the post id image how to do that is shown below.

One you grabbed the post id

go to this link

Code

https://m.facebook.com/photos/upload/?story_id=post_id_here&upload_source=timeline_story

Replace post_id_here with your post id

Example link

Code

https://m.facebook.com/photos/upload/?story_id=334323250062096&upload_source=timeline_story

What? You trollin or.....?

Explain better if not.

Deus_ - January 26, 2014, 4:32 pm

This doesnt work anymore, it gives a Error "We fix this asap"...

TrackPro+ - January 26, 2014, 6:07 pm

Thanks man, works fine for me. :}

Don't understand why these others don't get it :|

No it works. I just did it today. Message me if you have any problems. I also have skype if anyone needs help with it

also make sure you have

https://m.facebook.com/photos/upload/?story_id=334323250062096&upload_source=timeline_story

-> make sure you have &upload_source=timeline_story in the url otherwise. It will say Error "We fix this asap"....

Interesting tutorial, ill check this out indeed. :-o

Moghul - February 13, 2014, 2:28 pm

I dont understand this at all.

What it does?

and how to do it

neil5050 - February 13, 2014, 2:30 pm

Basically if you already created a facebook post -> you normally can't add a picture to it. You would have to delete your current post , and reupload a pic with a description.

This allows you to add a picture to an already exisiting facebook post

IF anyone needs help learning how to do this -> send me a message with either teamviewer/ or skype.

DistanceEra - February 13, 2014, 2:38 pm

sick post. I tried it and it worked

'Snorlax - February 13, 2014, 2:46 pm

For the people that does not understand anything:

This adds an image to an existing post of yours. Let us say you post an update on Facebook. You forget the image. Then you go to that link with your post's ID and you can add an image to it.
