Thread: [Umm... WTF is this ?](#)

B0\$\$ - January 28, 2014, 7:19 am

Suddenly pops out of nowhere, fuck this shit.

Spoiler ([Click to View](#))

Tastylicious - January 28, 2014, 7:20 am

Pretty weird, because that never happened to me before and I am using Chrome aswell ?

Rayquaza™ - January 28, 2014, 7:20 am

You opened a thread which contained a link which contained a exploit pack.

Jemjem787 - January 28, 2014, 7:26 am

That says "HackforNs" not HackforuMs. Be careful! And it brings you to a facebook phising site lol.

oGyro - January 28, 2014, 7:27 am

Diabolic - January 28, 2014, 7:30 am

It's just a bad link that has been flagged up, most likely to do with a somebodies signature or avatar. I would't worry about it.

Omniscient - January 28, 2014, 10:34 pm

<https://hackforums.net/member.php?action=profile&uid=68244>

He had a phishing link in footer. He's just lost his ub3r.
