Thread: [HQ Thread Design - FREE \(for booters\)](#)

Griffin - January 28, 2014, 9:07 am

I'm giving away the thread design I made for mhcBoot, back in the day. It's very clean and organized, a lot of time and effort went into this design; so please show your thanks by posting in this thread. It will include 5 PSD's, the main thread, the PM hyperlink features on the bottom, the version without hyperlinks and the sig to go along with it - unfortunately I don't have the PSD in layers for the bottom part, but it shouldn't be very hard to implement it using the layers from the main PSD - I've still included them so you can see them for yourself and try to base your design off that (you'll know what I'm talking about when you see it). I've included the link in this thread as well as the design itself so you can see it before you download it. This is yours to do whatever you want with; I do not require any credits to be given to me. All I can say is, enjoy.

OP, would you mind telling me the font you used for the words "Gold, silver, platinum, ultimate" it really neat looking and I am not sure what it is!

Pretty cool, did you made it? Because I saw it once here on HF.

Only make the text a bit bigger in the sign, OP.

Add this in a graphics resources section
would get more views there!
