Hm, seems interesting, what are the strength of your shells. I might buy a few. I'll be PMing you.

well the strength will vary depending on the bandwidth rates of the specific servers, they are all private though so there won't be others using them. I wont sell the same shell to two different people.

I can vouch for this, he's sold me some good quality shells, and they're worth the price!

Update: Thius user is legitimate, I've bought a total of all 12, if I had a defective one he replaced it, I recommend this buy, it's worth the money!

Vouch for this user. Very HQ Member. I know him outside of HF and he knows his stuff.

Humbles - February 5, 2014, 3:53 am

I have been buying shells from this user for a while outside of HF and they are very high quality shells, and you have my VOUCH!!!

Hi Im Shawn - February 5, 2014, 6:27 am

I'll take two shells :) PM me whenever you're online.

juggared50 - February 5, 2014, 8:34 am

How many time long your shells bro ?

ah well that varies, based on many factors such as the capabilities of the sysadmin and the methods used to maintain access in a stealthy manner.

Hi Im Shawn - February 5, 2014, 9:41 am

Got my shells, thanks for the service. :) vouch for this user.
