Hello. I am Jennifer Lawrence and today I will be reviewing your eBook.

Content: 10/10

Now, I don't review very many e-whoring ebooks, but I do know about the methods. This method, is one that is sure to make you some money. I hadn't thought of this, the only thing I thought of was using a VCW to exploit money from horny pedos. This method is a method I have never seen before.

Ease of Use: 10/10

There is nothing too difficult to perform for this method to work. The author even provides a few links to help you get started, and once you're started, making money will be even easier. I definitely think even my 9yr old cousin could do this.

Grammar: 9/10

Now, there were a few grammar mistakes that I caught, but they don't interfere with the quality and how to perform for the ebook.

Overall: 9.5/10

This is just...wow! Never before have I seen something like this. You could easily make some money by putting about 30 minutes of your time for setting up, and then a few minutes everyday. This is so simple and easy to do, there is no way to fail at this. There are links to help get you started, which will help you bring in more money than you can think of. If you decide to purchase some ewhoring ebook, I definitely recommend this! Vouch for Homestead!

Side note : If you need another item or website reviewed, please do not hesitate to contact anyone from our group thread to do it for you!

I would review this ebook for you if you'd like.

I'm pretty good at eWhoring, and i'd like to share my opinion.

It's cool if you don't want to. ?

Vouch for HS, HQ member.

We don't give vouch copys anymore, says it in the OP.

**Homeland.** - February 1, 2014, 6:27 pm

Still for sale, message me or WorldCoin for sales.

**GameFreak** - February 1, 2014, 9:50 pm

Does anyone have proof of this working? I would love to purchase it.

Look at the OP... there's 10+ vouches there.

**BeckyG ?** - February 3, 2014, 9:26 am

They're asking for someone who has purchased the Ebook for payment proof, not your friends. I talked to a guy who said this Ebook was just a compilation of other, leaked Ebooks.

This isn't a compilation. There's only one method in the book (Cause you only need one method that works). So your information is wrong. Take a look at the last sales thread. You'll see that those are for the most part vouches by satisfied customers.

**Homeland.** - February 3, 2014, 10:57 am

It is far from a compilation of ebooks. That's a real joke if that is what someone said.

**Green Apples** - February 4, 2014, 11:38 am

Homeland and I are both online, pm either of us to purchase.

**TempSwee** - February 4, 2014, 11:43 am

Vouch for OP, Good Luck with selling it.

Do you think it is possible for me to get this? However, before I purchase, I would like to know what's in it.

I hope it's an unsaturated site, seeing as I'm using a real girl and don't need a VCW. Get back to me about it.

**DenialService** - February 6, 2014, 10:44 am

I dont understand how the ewhoring workin, do i need email lists to spam them or how the people reaching her i dont know actually anything, I will appreciate any correct information thanks
