Amount Scammed: \$44.10

Description: I purchased 100K traffic to be sent to my website over a period of 30 days, at about 3400 traffic per day. I ordered the service on 4th of January, and until 26th January I've received only 26,580 unique visitors, which means only about 1200 visitors per day.

On 26th January, I PMed him once, and then PMed him again since he didn't care to reply. After two PMs, I still didn't receive a reply from him. I decided to open a dispute in PayPal, and only then he replied to my PM stating that he'd provide the remaining traffic and asked me to close the dispute.

Closing the dispute means that I won't be able to get back the money from him, even if he doesn't deliver the remaining traffic.

He replied to the Dispute, stating that I wanted 100K traffic in 60 days, and he is totally lying about it. He even said I received 54K traffic, where my Google Analytics clearly shows it's 26K.

Screenshot of him lying that the deal was 100K in 60 days, and that I've received 56K traffic.

Proof that the deal was '100K in 30 days'

I just took the screenshot from my Google Analytics account, and today is the 30th of January, and still I've received 30K unique visitors in total.

Note: It doesn't really matter if you plan on refunding me or not, because I will win the dispute anyways since my PayPal is business verified and I even have a PayPal consultant that deals with my disputes. I made this thread, so that people can understand that you're a scammer.
