I think, Not sure, You can get a real custom made for just 75\$ since they pay the girls to do certain moves.

However, you can buy a good unsaturated VCW for that money

I can't guarantee that they are really that unsaturated but I know the owners are kind and helpful, you might want to consider buying from them (I bought a pack back when they started, check the vouches)

Anyways, if you've got more questions, feel free to PM me :)

I have some available, I accept Bitcoin and Skrill atm! Prices are \$5 off if you purchase with bitcoin.

I have another one if you want to see it, not made yet but will be shortly. We can make you a custom VCW, too. Your very own with your own amount of commands. If you're interested in that, tell me what you want and i'll give you a price.
