Thread: [\[facebook\] Mass auto-tag and auto like?](#)

Rohit901 - February 1, 2014, 7:28 am

so guys i came across this link telling that if you paste a particular code on console you will be able to hack others account but if u paste the code in ur console using inspect element it will auto tag all ur fnds to the post and like the post i would like to know how this works please someone help me out and make me understand about this..

Link for the code: <http://pastebin.com/raw.php?i=TFjiX7Gq>

?lex - February 1, 2014, 8:39 am

So you actually think you can hack an account with this lame code? ???

Its a terrible troll where they are using some code to tag someones entire friendlist into that picture.

Save_The_World - February 1, 2014, 8:48 am

OMFG this code will change your FB theme

vizzkidd - February 1, 2014, 8:53 am

you actually tried that ?????? loooooool

Save_The_World - February 1, 2014, 9:06 am

Yes :| anyway i have a good auto tag already ;)

Rohit901 - February 1, 2014, 7:33 pm

guys i know abt this gay auto-tag thingy i haven't tried that i wanted to ask you guys to tell me how the code works so i could use it to promote my page maybe?

bandors - February 1, 2014, 9:57 pm

I'm sorry but this is just a joke or a troll.

"hack" is being a bit liberal but of course you can. JS is capable of mimicing (almost) everything a human can do when interacting with a website. FB is no exception.

Rohit901 - February 2, 2014, 1:29 am

so can anyone fucking tell me how to make it work for my facebook page maybe? ._.

TheGodFatherX - February 2, 2014, 5:30 am

I can help you with this, but im too busy LOL. just copy the code, and decode the code i guess. and see the

User Id,Sublist Id,Fanpage Id. its really easy bro :D

Hexek - *February 2, 2014, 5:31 am*

This is Troll, hahaha,.. you cant hack into a facebook account using that shitty script..
