Thread: [what torrents for spreading ?](#)

Shiftex - February 3, 2014, 4:01 am

Hello

I would like to ask what torrents are good for spreading ? To get alot of installs.

I know about TPB (but seems that i cant create an account) ,and i know kat.ph (there u must wait to get aproved) any other websites to fast infect people ?

Please respond back thanks! alot.

I've had some luck with kickass.to. Usually get downloaded fast, but the problem is, it can get pulled quickly as well. Might check out the ones you mentioned.

Use kat.ph download a legit torrent for a game but change the installer with yours and act like its the updated one.

"justin bieber sex, with brazilian stripper" works like a charm... ROFL. But seriously try it.
