Sux2bu. If you don't live in Missouri, why do you want to go there for a job? It's pointless, your brother had a good reason. You on the other hand, don't.

Too fucking bad yo. Tell them sons a bitches you take job. #YOLO420BLAZEIT.

Don't complain about it, your parents know what's best for you, find a local job where they know you want get into a lot of shit. Obviously you're too immature if you're only caring about the alcohol anyway.

I know right, I could have spat all over the sidewalk, and show my dominance like a real man.

If you're 18 go and do what you want. If not, then they have control.

I had nothing in it for me going 2500 miles across the country to a job interview, but in the end it all smoothed over. I got the job and I ended up getting in to a relationship and moving in to my own place. You don't necessarily need a reason to start a journey somewhere.
