Thread: [Any silent free bit miner that works?](#)

baby1 - February 4, 2014, 10:02 am

Hi, i currently have some slaves and would like to find out if there are any free silent bit miners i can implant on to their systems? I looked for some but, they did not seem to work, or were outdated. Thanks!

I recommend using SovietMiner. Been using it on my slaves for 3 months now!

Great features!

You should just buy Plasma RAT. Its really good for mining and you can DDoS.

I would, but i don't actually have enough money to do that right now, when i get the money i will. But i need money first.
