Thread: [\[ALL MEMBERS\] Teaching 1 person my private method of earning money - EARN LIKE A BOSS](#)

Anakin™ - February 5, 2014, 4:21 pm

Hello everyone.

A few weeks ago I've discovered a method which has huge potential to make some big cash. After a few days of work, I'm up to making around €80 a day now, which will increase more and more over time.

Few short words about the method: I'm not gonna bullshit you and tell you it's autopilot from the start. Well, it's not, you'll have to work for it. The work, although, is very simple and you do not need to have any previous knowledge of anything to do it. A child could even do it. The harder you work, the sooner the method will demand less work and eventually turn into autopilot. I'm quite sure that you'd be able to earn like me if you decide to put in enough of your time. By that, I mean around 2 hours daily. The method needs a minimum investment to start, but I'll cover that for you. The method is 100% Whitehat, legal, moral, etc.

Take your time to answer the questions the best you can, don't forget only one person will be taught this method.

So, let's start, the form:

Code [b]1. Age:[/b]

[b]2. Location:[/b]

[b]3. On a scale from 1 to 10, how creative are you:[/b]

[b]4. How much hours/day are you willing to dedicate to this:[/b]

[b]5. Are you a gamer:[/b]

--Answer the following questions only if the answer to 5 is 'yes'--.

What games do you play:

Do you have contact with other gamers (e.g. a gaming clan, youtube channel, active on some gaming forums etc.) (if yes, describe into detail):

Do you ever watch twitch.tv livestreams:

[b]6. Why would you like to learn this method: [/b]

[b]7. Write a few words about yourself (max 5 sentences) so I can get to know you better: [/b]The contest will end on February 13, 8PM CET.

Disclaimer:

It might take up to a week until you start earning.

The method will not magically generate money for you.

I will write an e-book about this and you'll be the only one to get it, and for all support and general chat we'll use Skype. I'll also give you lifetime support, and we can share experiences with each other.

The method will never get saturated.

3-day payment as of Feb 7-9.

Good luck!

Nixing - February 5, 2014, 4:37 pm

1. Age: 23
2. Location: India. GMT +5:30
3. On a scale from 1 to 10, how creative are you: I would say 7-8 if not 10. In my honest opinion, I would say 10 but I really dont know the scale. There might be many creative members than me.

1. Age: 17

2. Location: New York

3. On a scale from 1 to 10, how creative are you: 8

4. How much hours/day are you willing to dedicate to this: 4-7

5. Are you a gamer: Yes

Do you have contact with other gamers (e.g. a gaming clan, youtube channel, active on some gaming forums etc.) (if yes, describe into detail): No

Do you ever watch twitch.tv livestreams: Yes

6. Why would you like to learn this method: I've been searching for methods for as long as I can remember. This includes buying literally thousands of dollars worth of methods over a few years that either didn't work or only worked for a very short period of time. I am currently attempting to buy a car as we as a birthday present for my girlfriend without the help from my parents. I have attempted to get a job, but I have had no luck so far. Earning even \$50 a day would immensely change my life.

7. Write a few words about yourself (max 5 sentences) so I can get to know you better: I have an inquisitive mind. I am constantly attempting to think of the next big thing (then again, who isn't) by endlessly thinking about how simple problems in life that an average thinker would overlook could be solved. I have a great passion for working for something with a great outcome, so I will be motivated if you were to choose me. I am a quick learner, or so I've been told, and I am willing to really put in my best efforts regardless of how strenuous the requirements may be.

Appreciate you doing this. It's smart not to sell it to avoid saturation as you probably well know, and giving it away to one person with the support you're offering is very nice of you to do.

Thank you for reading.

Xilence - February 11, 2014, 5:18 pm

1. Age: 18

2. Location: USA

3. On a scale from 1 to 10, how creative are you: 10

4. How much hours/day are you willing to dedicate to this: As many as it takes.

5. Are you a gamer: Yes, a PC gamer.

--Answer the following questions only if the answer to 5 is 'yes'--.

What games do you play: Battlefield, Elder Scrolls, Counter-Strike, Garry's Mod, Halo, PayDay, DiRT, Assetto Corsa, iRacing, Crysis, Total-War series, and Tom Clancy games.

Do you have contact with other gamers (e.g. a gaming clan, youtube channel, active on some gaming forums etc.) (if yes, describe into detail): Yes, I have many friends that are just as active as I am when it comes to PC gaming. Do you ever watch twitch.tv livestreams: Yes, the majority of my viewing goes towards Counter-Strike Global Offensive.

6. Why would you like to learn this method: Ever since I joined Hack Forums, I've always been on the hunt for new and legitimate methods. I've bought probably over 200 methods/eBooks, not in hope that they would make me rich, but so I could absorb as much knowledge as possible to help me create my own methods. Because of my, what most people would call wasteful, spending on eBooks and methods, and my vast ability to think outside of the box, I've been able to culminate my knowledge into a few methods that have allowed me to earn around \$6,000 in total. Knowing this method would not only further my knowledge on creating an even better method further down the road, but it would also greatly help me out financially, as I'm leaving for college this year and having some spending money would be a huge relief for my parents and for myself. Also, getting to know another fellow HF member wouldn't be too bad either ?

7. Write a few words about yourself (max 5 sentences) so I can get to know you better: I'm an honest and trustworthy person with a light-hearted sense of humor and a motivation to succeed more than anything else, especially when it's something I'm passionate about (Money being one of them). When I imagine an image of something I'm striving towards, I don't stop until I achieve that

something.
