Hey you guys I am going to be leaving a " Review " From the website <http://hitincreaser.com/>

About:

This website is owned by [hitincreaser](#). It is a free traffic exchanger website. Quote from their website: Spoiler [\(Click to View\)](#) " Hit Increaser is a Traffic Exchange, also known as an autohits service We help you increase your website hits, rankings (alexa, google) and more. Our affiliate program gives cash and traffic commissions of up to 50%. We Offer Free Traffic To Everyone. Users Will Have to View Other Users Websites To get "Coins" Which They Can Spend On Getting Users To View There Website."

Features:

Well most of you already now what to expect from traffic exchange websites , but what makes this one diffrent is that you don't have to pay for premium to add a custom referrer which is really great , it also doesn't have an annoying pop up website thing.

Cons:

Website looks a little bit " fake " just a little but its overall legit . No referrer system (to my knowlege)

Rating:

8/10
