Hi, I'm W4RNING and I will be reviewing this e-book. _____

Content: (?????)

I just received a vouch copy of this e-book and I must say it's very well written by the author. It's clean and detailed and will definitely make you money in the hundreds or even thousands if you give it the right start with a little bit of effort. This e-book contains over 20 pages! That shows that the author is really inclined to help and explain for maximizing your earnings out of this e-book. It looks very promising and it is very promising. _____

Ease of Use: (?????)

This e-book requires you some setup and smart thinking. Once you get started after all the setup you will see the cash flow. You don't need any skills to make this work. You might need to invest around \$5 to \$20 dollars to make this method even better but it's not really necessarily. I can say that it will give you what you're looking for. After all of that setup it actually becomes some type of auto-pilot and that will help you with making a load of money. _____

Grammar: (?????)

It's accurately written with minor errors. I didn't notice anything while reading so it's all fine. _____

Overall: (?????)

This is a stunning e-book that can make you big amounts of money when you really want to go for it. I highly suggest buying this if you want to try something on large-scale. So again, it isn't very saturated but remains as a good e-book. _____

Originality 8/10

The method that the author uses here is not 100% unheard of but he puts his own interesting twist on the method to provide a easier way to go about completing this method. To make it even easier DigitalMarketer includes several bonuses! These are very helpful and should make your money making ventures much easier!

Grammar 8/10

There are a few grammatical errors here and there and 1 or 2 typos but these do not decrease the overall quality of the ebook!

Ease of Use/Initial Investment 7/10

This method will require a tiny initial investment but you as the consumer have numerous options to increase your investment to increase your profit! The instructions provided are excellent as the author provides steps throughout the whole process to help ensure that you make money! This method is not that hard to carry out even for newbies to monetizing. However if you happened to be more exprienced then it will be much easier for you!

Quality 7/10

I think that this method is rather HQ and has the potential to make YOU money! Although it may take a bit of time to setup.

Overall 7/10

So all in all, this method would be a worthwhile buy for any consumer wanting to get into monetizing. The instructions and method are simple enough, it cannot really get saturated, and has a lot of potential for money making! Its only downfalls are the setup and small investment

(Feb 8, 2014 05:15 AM)Tier Wrote: [\[CITE\]](#) Tier here. Received a vouch copy, so read up. Based on a ????? (5) scale.

Originality: ???

The ideas here are all ideas that are right in front of your face; however, I suppose that this eBook could be eye-opening if one does not see the potential behind the preexisting methods. The user adds SOME of his own personal tweaks towards the end, but does not elaborate as much on this one (which i think is more viable a method based on saturation).

Grammar: ????

There are very few grammar mistakes, and nothing about the eBook is terribly confusing in terms of proper English. If grammar is your only concern, send this man the money.

Organization/Helpfulness: ???½

One worry i have for this eBook is that it speaks with a vocabulary that is catered to those that already have experience in the corresponding market. If you do not have experience in said market, you may become confused at some parts; however, the guide does a great job of offering a mix of both step-by-step and hypothetical information. The guide is organized somewhat nicely, and the title page caught my attention immediately.

Will it Work?: ???

Note: This is entirely based upon my opinion. I received the vouch copy simply to review the product, and I am not biased in either direction. Being within the group that the user plans to "exploit," if you will, I feel that his reasoning is flawed. If he has payment proofs so be it, but I have witnessed people doing what he is doing and they don't seem successful by any means.

TLDR: It will require a bit of start-up work, a lot of planning, and a handful of maintenance but once you get the whole setup rolling, I could see this set of ideas having potential.

Saturability: ???½

Note: This will not be included in the overall, as it is a different type of scale. With this section i simply wish to state two things:

1: This market is already somewhat saturated in a sense that the desired targets are already hit so hard with advertising they tend to ignore the advertisement. I speak from experience as I fit perfectly into the target audience.

2: Whomever said "this will never become saturated" in their review is a moron.

Overall: ???¼

This is simply an average of the other categories. Let me make one closing statement and say that if you were to purchase the method, then ignore his niche and find your own you would ultimately be successful; however, if you could muster up the brain power to create your own "million dollar niche," you wouldn't be buying an eBook on Hackforums.

The method in this e-book is decent. It has something to do with an already known method, but the author adds his own twist to it so that you could really earn.

Instructions: ?????

The instructions used in this e-book are not that good. The author does not add a lot of screenshots to guide you through the process.

Grammar: ?????

I have found several mistakes in the e-book, but it won't stop you from executing the method.

Quality: ????? This is a decent e-book, the author adds his own twist to it so that you could earn a lot of money. You have to work hard in order to see the cash flow in; if you're not willing to spend time on this, don't bother buying the e-book.

Overall (3.2): ?????

This e-book is great and has an opportunity of making you a good amount of money, but you have to work hard in order for you to actually earn.

This is an amazing method, but it would only work if you try, and there are bonuses in it which are amazing!

Hat:white

This method is 100% whitehat.

Grammar: 7/10

I've seen grammar mistakes here and there but they do not affect the method quality.

Saturation Chances(This scale goes from 0-10): 1.5/10

I doubt this method would ever get saturated even if a number of people use it.

Overall: 8/10

This ebook have great potential of making hundreds, but you have to dedicate yourself to achieving that goal.

Does my age matter?

No your age doesn't matter in all of the methods, except on method mentioned in this eBook.

Will this method become saturated?

Never.

Is this method white-hat?

- Yes. Fully white-hat.

I've got some other question.

- You are free to PM me, or even post in this thread.

Vouch/Review Copies

I will only be giving 5 vouch copies to trusted and high-rep'ed members. Also, only for Ub3rs.

ProBux - February 7, 2014, 3:57 am

I probably won't get the vouch, but I'll have to start somewhere. I'll give an honest review on your ebook when I get the money / vouch copy.

M?gic - February 7, 2014, 4:15 am

Hey, Digital. I'm interested in the method and was wondering if you're willing to pass me a vouch copy. I'll write a well-written review, and do anything I can to help your sales. PM me if you're down for this.

V For Vendetta. - February 7, 2014, 4:21 am

Got a review copy! Will be posting my review when I come back from school. Thank you. :)
