Thread: [\[FUTURE RELEASE\] \[PROGRAMMING CHALLENGE!\] INSTAGRAM NAME GRABBER - LESS THAN 2 HOURS!](#)

Vigor - February 6, 2014, 3:58 pm

Hello Hack Forums.

Some of you may have noticed my post in regards to a Hacking Tool/Program. I was requesting ideas.

Well, thanks to the user Wzards, I have made my decision: an instagram name grabber!!!

To keep things interesting, I have decided to make this even more challenging: I GIVE MYSELF 2 HOURS TO FINISH THIS PROGRAM. You can track my time here:

[Online Countdown Timer](#)

If I go over this countdown timer, I have failed my goal.

If I am successful, you all get a great, free program!

I am also putting the following requirements on the program, it must:

Get names from at least 2 websites

Have a fully function, non-standard theme (probably a user's theme from here on HF)

Must be able to save the name lists

Wish me luck, I am starting as soon as I hit the submit button!

we r num 1 - February 6, 2014, 4:06 pm

Thanks for choosing my idea! I hope it turns out well! You should do it in a join.me session!

Vigor - February 6, 2014, 4:26 pm

that's a good idea for next time man!

Update!

Another rule I'm adding to myself:

It must be multithreaded!

Thanks guys!

autorunman22 - February 6, 2014, 5:05 pm

So what's up with this? Please keep us posted and tell us what language you're using

He made a thread asking for ideas on a program and he liked my idea the most apparently :D

One²? - February 6, 2014, 5:17 pm

Awesome! Keep us updated, 42 minutes left haha

Vigor - February 6, 2014, 5:27 pm

Still going strong, went to take a shower, ran into a couple of problems but it will be released on time!!!

Nearly done!

liam1uk - February 6, 2014, 7:01 pm

Congratulations!, You done a great job man :)

Kind of like yer two hour limit has already been consumed dude?

EDIT: Got your new thread. Great great great.
