Lets get this going?

huff - February 7, 2014, 11:42 am

Vouch for my friend here! Really trusted. He will pick a winner not a fake contest! ?

Malcolm???????????????? - February 7, 2014, 12:08 pm

Why do you believe you should win this upgrade contest?

I am really active on this forum as its my daily rutine to check the VB.NET, Innuendo, Lounge, i just dont post as much, only when i feel i have the need to.

What have you contributed to the community since you have been a member?

Visual basic section: Simple drag n drop, Tutorial on how to make an injector (VB.NET), Gave free netflix accounts away, Released a multi converter for files, Released a calculator source in the vb.net section.

What will you contribute to the community when you are upgraded?

As a ub3r i will be cleaning more up in the community around coding section and lounge.

I will guide people to find things positive instead of making sad threads, and help them on their way.

why do you believe you should win this upgrade contest?: Well because I just want to contribute

more to the community and with this upgrade Ill be able to do more things to give back to the community like you are doing now :)

what have you contributed to the community since you have been a member?: Well I offer my services to people Interested and I am very active among the forum and I like to help people in need that maybe need a buddy to talk to :)

what will you contribute to the community when you are upgraded?: I will most likely give back what was given to me which would be an upgrade thread as you are doing right now and do alot more contests and lots of freebies !

Thanks for the opportunity Perfect! ?
Best of luck to all!

Gangster Disciple - February 7, 2014, 1:05 pm

Why do you believe you should win this upgrade contest?:

I believe that I should be upgraded to Ub3r not because I deserve it as such, but because I could possibly offer something different to most other people that want it and also, I have been here a long time. I wasn't active much before I left for a while, but when I came back my activity has shot up a huge bunch. I am mostly in the "Innuendo" forum helping out other people with their problems, offering advice or just contributing as a whole. I have received positive feedback and appreciation for helping people out with sensitive topics such as these, but that's not why I do it. I do it to show that there are still some kind-hearted people out there that genuinely want to help others. I take pride in creating high quality posts and always make sure that my grammar, spelling and punctuation are equated to those posts.

What have you contributed to the community since you have been a member?:

I constantly help out in the Innuendo section and that is my main "specialty" if you can call it that, I've had a free clicking service, and I have also done a \$10 contest myself. Hoping to do more in the near, near future.

What will you contribute to the community when you are upgraded?:

Just continue to offer my help and assistance with difficult struggles in life, and other small things that people may wanted to be helped in. I also feel that a lot of people misuse the name of Ub3r to get advantages over other normal members and think that they have a sense of "power", but this isn't the case with me. I'd see myself as the type of person to not use Ub3r to scam other members and show appreciation by continuing to keep high quality, while also helping out other members, whether new or old.

Proof that I have been accepted: <http://prntscr.com/2qf0aq>

Thank you for this contest, it is much appreciated.

HIGH PAID FELLA - February 7, 2014, 1:40 pm

Why do you believe you should win this upgrade contest?: First of all, I want to thank you for doing this giveaway and giving my a chance to upgrade. I want to say that I deserve it because I'm a HQ member, I help a lot of people with feedback (more on GFX), ideas and much more. I help people a lot with my free GFX-service I started because I want to help the people out that don't want to pay. It's too for myself I do it to become each time better and better. And I did too a free hosting for ONLY the HF community because you needed to PM for an account (you can't make one by yourself). I would like I33t because of all his features and if I would get it it would for me a reason to become even more active than ever (already active). I really need the PM space too because I need always to clean my inbox if I do a service like that.

What have you contributed to the community since you have been a member?:

Free GFX service -

<https://hackforums.net/showthread.php?tid=3277575>

Free hosting (not available anymore) -

<https://hackforums.net/showthread.php?tid=3312274>

<https://hackforums.net/showthread.php?tid=3141813>

free Habbo scripting tool -

<https://hackforums.net/showthread.php?tid=3200178>

free VPS

got deleted because of a mad regular reported it (check rep for proof)

What will you contribute to the community when you are upgraded?: I'll do another GFX service and maybe another giveaway.

Thanks for this, OP! Congrats with your 1400th post! ?

Snapchat™ - February 7, 2014, 2:50 pm

why do you believe you should win this upgrade contest?:

Been on HF for quite some now, done alot of giveaways, always do my best to stay friendly and help the newer people.

what have you contributed to the community since you have been a member?:

If you look at my threads, you can see I've done some giveaways, I will continue doing them more and more since I got recently got back as my hard drive crashed.

what will you contribute to the community when you are upgraded?:

I will do more and more giveaways, as soon as I find something to giveaway,
I will be more active and do more giveaways.

I can PM you proof that I am accepted if you would like to.

Justin Timberlake - February 7, 2014, 3:10 pm

I believe I should win so I can become a permanent part of the community and contribute more.

I've done a tutorial on how to receive Xbox live codes, and I've done a couple of giveaways.

Once I'm upgraded, I'll be able to start hosting contests and giving back to hf.

This is going to be one hell of a journey for this thread. Good luck everyone!

Bay - February 7, 2014, 9:59 pm

This is a very nice contest. Good luck to everyone.

Linux™ - February 7, 2014, 10:22 pm

why do you believe you should win this upgrade contest?: I think that this would be a perfect opportunity to motivate me even further, and also feel it is deserved, because I want to do nothing but give my best to others, and offer the same quality knowledge people would usually sell for free, and look towards the advancement of the HackForums community, and share, I love 143's motto, in order to receive one must first learn to give. I love to help people with MRT work, and also love to teach people for free. I also help people with learning the basics of "hacking" without expecting anything in return.

what have you contributed to the community since you have been a member?: I have given an old email bomber program away for free, and have made original content on HackFORums, such as my tutorial on how to setup a botnet behind the tor network, and VPN Chaining, and went through great extents to put in the research, and have spent countless hours perfecting each method, and simplifying it to keep a simple, yet high quality value while maximizing the outcomes. I have had a small giveaway of a proxy list which was unchecked, and had exceeded 400k proxies.

what will you contribute to the community when you are upgraded?:

I want to search more in-depth, and release more "revolutionary, and original" content/products to HackForums free of charge, and also offer some high quality paid products too which I hope to donate a majority of the money to charity. I want to revolutionize ewhoring, and make a project to make it possible from a Linux machine, and also be able to bypass the need for picture packs or a VCW, and make it available for free, as well as continually contribute good places for people to find their work, as well as become better at monetizing, and give my methods to people for free as well. I also have decided to release the first project that would be a CMS for doxing where people would have access to all the tools in a simplified environment where they could also store their information securely. Which includes an SMS Bomber, Email spoofer, and much more to it. And also release the source code to my custom SMS Bomber for free which also includes an AFK mode which has been designed to bypass SMS Spam detection when using SMTP protocol from a remote application.

With that I wish everyone best regards, and congratulate the winner. If I do win I want to say I will be forever grateful to you as well, and would also feel indebted to you. Have a nice day, and best regards. -Abrin.

UPDATE: I also believe my skills in Web Design, Web Development, and further things such as skills with the .NET framework, and experience with Linux machines I could also make a tutorial on how to get a free VPS, how to install a control-panel, configure DDoS protection, and also Configure BIND so they can get a free top-level domain name, and also make a tutorial on DNS Hijacking.

Proof of Approval

EDIT: I won't be needing to participate in this as I have just upgraded. Best of luck to everyone else, I still plan on carrying out what I had said. I look forward to what you all have to offer, good luck to you all!

Proof you are accepted for UB3R:

Why do you deserve to win:

One of the reasons i deserve to win this is because i am part of the community for a pretty long time. I really love the community, It all started the day i googled: "How To Hack".

I am happy to be part of the community because the most people out here are very friendly. I think i deserve this because i think i am a HQ member. (Hard to say about yourself)

In the future i wanna start a producing e-book. I am part of the BH-EDM, I really like it out there. I am producing house for like 2 years now and i wanna improve my producing skills in the next period.

My real name is ramon btw and i am 15 years old, i am from holland. I've learned much out here on hackforums, like how to use a RAT, What is bitcoin etc. But the main rule i learned on hackforums is, be nice to someone and he will be nice back to you. This rule is also for everything in real-life. If you do something for the community the community does something back to you. That's what i really like about HF. I think i also deserve this because i did some giveaways, made some tools and did a RAT service. I've helped people set-up their RAT and get a first slave. I also had a DDOS-service, but closed this because of to much requests.

?Dødgygeez - February 8, 2014, 1:26 pm

I meet the requirements for L33t!

Here I go ::

why do you believe you should win this upgrade contest?:

Although I am fairly new to HF, I've seemed to have learned SO MUCH from this community in a very short amount of time. I consider myself to be at least a fairly HQ member as I write my posts to as much detail as I can. I've never been mean to anyone and I am a very nice guy - in my opinion anyway.

what have you contributed to the community since you have been a member?:

I know very little in coding/programming and whatever else which is why I am currently trying to learn from HF. However, I have shared very simple .bat creations which I thought weren't too bad! Furthermore, I've tried my best to help people set up their RAT's! I've also hosted a couple giveaway threads but I only offer easy services like referrer links, surveys, registering on websites, youtube likes/comments/subscriptions, twitter followers etc... A link similar to this description can be found [here!](#) No one has been disappointed from my threads and I even earned a little reputation from one of my satisfied 'customers' xD

what will you contribute to the community when you are upgraded?:

I will provide more witty remarks on the Lounge forums to cheer people up. I will continue using my 'Words of Wisdom' on some threads and I will help out members which are in need of assistance if I am able to help them - which hopefully I can! I will perhaps share more of my creations and provide more giveaways! More than likely a little more than easy services like I have currently done. Oh! And not forgetting sharing my HQ posts with the community either!

[will post screenshot of upgrade if it happens!]

Thanks,

~ dodgygeez

Extra :: Not trying to improve my chances - but I hope it does!! (Oh my banter :D...) Congratulations

on the 1400 posts and I think this giveaway is out of pure generosity. This automatically makes you a great individual so you are permitted to walk around knowing that you're better than the average human being! Not putting down the average human being or anything.. But this is a great giveaway and you've already upgraded 13 members! That's an achievement on HF, surely!

why do you believe you should win this upgrade contest?:

It's been good 1+ year that I am really working hard to do my best for HackForums. And I believe my work should speak for itself. Let it be the Hacking, I'm willing to help every member no matter if he is ub3r or l33t and I'm always ready to learn something new from there ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises to our members, it can be an issue that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Additionally, being in to the technical field, I really feel excited in solving technical issues of our fellow members. And I must say, I have solved many such technical queries here..

why do you believe you should win this upgrade contest?:

Why would be... Because I like it here. Especially Omni, and positive. And many others of course. Remember that malware bytes case? Omni handled that very well, was extremely interesting to read. URL: <https://forums.malwarebytes.org/index.php?showtopic=36808>

I would love to buy l33t myself to support the forums and for some extra features such as positive repping people, but I can't afford it. Since I don't have any incomes at all, maybe I could find some pennies on the ground in my room?... Even if I had the money, I don't have any cards or online banking accounts or bitcoin, what makes it a problem for me..

what have you contributed to the community since you have been a member?:

I try to help people out in the iOS section and sometimes in the lounge/innuendo section.

I have experience in relationships and friendships and heartbreaks so I could start being more active there I guess!

what will you contribute to the community when you are upgraded?:

I could thank people for their tutorials or good deeds or just to make someone's day, with positive rep point here and there.

It's awkward to PM someone for thanking him since I'm a regular member, and posting in threads, well; there are other 10 pages of replies which need to be readed for the OP.

Also hanging around in the new section after being upgraded to l33t, means I could maybe be helpful there.

It's been good 1+ year that I am really working hard to do my best for HackForums. And I believe my work should speak for itself. Let it be the Hacking, I'm willing to help every member no matter if he is ub3r or l33t and I'm always ready to learn something new from there ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises to our members, it can be an issue that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Additionally, being in to the technical field, I really feel excited in solving technical issues of our fellow members. And I must say, I have solved many such technical queries here..

What will you contribute to the community when you are upgraded?:

Help Others Then Never before; As i have been Helping Many Hf Users in many ways, and If i get upgraded I will continue the helping and Will Never Back-down in it!!! will give Lifetime Support who are in this Forum, who helps me with my problems and who needs my help. One thing i cannot give right now is reps, and open member giveaways, Which Makes me feels sad that right now i cant give reps for the great users who helped me in many ways, give back what was given to me. and keep this HQ.
