A lot of duplicates. If you're going to list sites, make sure to remove them. ?

Nice list for beginners. Most are saturated though, but you can still make some money with them!

I'm not trying to flame your thread or anything but chat sites are quite horrible to e-whore. I'm pretty sure most professional and successful e-whore professionals don't spam chats because it was ineffective when it first started and it is now. I've made almost a grand in 2-3 days from my own methods.

Good sharing to the community though.

Chat avenue is rather quick to hand out IP bans these days lol. For pretty minor stuff might i add, Or at least minor IMHO.

Thank you. Great List. Perfect for eWhoring. Most are very saturated, but still work like a charm!

I knew about 60% of the list, I will try the ones I have not used before. I have my own unsaturated list.

If you are willing to trade "unsaturated list only" hit me up with a PM or on Skype.

Thanks bro.

Great LIST!
