Whenever I try to download the skype install file, it doesn't work. It's blocked. Please help me :(

Xuna - February 8, 2014, 9:22 am

Disable your antivirus program and you should be good to go!

I don't have it open right now. Does that matter?

Aura - February 8, 2014, 9:25 am

Sorry but to me it doesn't look like it's the original Skype installer.

Where are you downloading it from ?

I renamed it to try and get it to work. Skype.com is the download spot.
