Thread: [Special Characters for HF Username](#)

Trust - February 8, 2014, 12:17 pm

Honestly not sure where the hell to post this, but here are some special characters to change your HF Username to a name already in use. (Be sure the original account is inactive!) You can use any of these characters in your username, they look like normal letters, but they aren't. This is similar to the invisible character space trick.

The letters are (Note, there is not EVERY letter, but most) :

?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?, ?

?, ?, ?, ?, ?, ?, ?, ?

HarveySpecter - February 8, 2014, 12:24 pm

The only problem with this is they can't search for your username if you use these special characters. But anyway thank you for posting this.

Xonyboy - February 8, 2014, 1:03 pm

Could you give an example? I don't get it that well =\
