Thread: [\[MyBB\] Editor Tabs are not working \[Suspecting its a JQuery conflicting\]](#)

Jordana Brewster - February 8, 2014, 3:41 pm

Hello,

On my upcoming forum (<http://www.CraftRegion.com/forum>) the post editor is not working.

By that I mean this

[img]http://snag.gy/UiS8z.jpg[/img]

This is what I currently see,

[img]http://snag.gy/DQjt9.jpg[/img]

Furthermore, the smilies do not work (when you click on them) I have added this code to my headerinclude

```
Quote:<script src="//ajax.googleapis.com/ajax/libs/jquery/2.0.0/jquery.min.js"
type="text/javascript"></script>
<script type="text/javascript">jQuery.noConflict();</script>
```

I beleive it is something to do with the conflicting JQuery, however even after adding the above code it still does not work. I have uploaded new copies of editor.js and the default and office 2007 themes.

Thank you for helping,

Luna Lovegood

why don't you try adding a new mybb theme and see how it goes?

That worked :)

For some reason, the theme now works after playing around with it.

I think it had something to do with {CodeButtons}
